ACKNOWLEDGEMENT

I am profoundly and everlastingly grateful to my guide, Prof. Y. K. Agrawal, Director, Institute of Pharmacy and Sciences, Nirma Institute of Science and Technology, Ahmedabad, for giving me an opportunity to work under his perceptive guidance. I am deeply thankful to him to teach a systematic, precise and basic approach to do research work with punctuality, dedication and discipline.

My sincere thanks to Prof. U. C. Pande, Head, Chemistry Department, School of Sciences, Gujarat University, Ahmedabad, for his cooperation and suggestions throughout.

I am thankful to Prof. (Mrs.) S. K. Menon, Professor, Chemistry Department, School of Sciences, Gujarat University, Ahmedabad, for her helpful suggestions, support and advice whenever I needed. It is my pleasure to thank Dr. V. K. Jain, Reader, Chemistry Department, School of Sciences, Gujarat University, Ahmedabad, for his kind help and suggestions.

My special thanks to Dr. Pranav Shrivastav, Reader, Chemistry Department, School of Sciences, Gujarat University, Ahmedabad, for his continuous help, affinity, care and invaluable suggestions till the very end of the making of Thesis.

With the immense pleasure, I offer my sincere thanks to the teaching and nonteaching staff of Chemistry Department, School of Sciences, Gujarat University, Ahmedabad, for their cooperation and help.

I am grateful to express my thanks to the Government of Gujarat for providing the State Scholarship during the tenure of my Ph.D work. I also gratefully acknowledged the authorities of CDRI, Lucknow, for providing the spectral data of my samples and to the Bhabha Atomic Research Centre (BARC) for providing ICP-AES results of my samples.
I will always miss the togetherness and heartfelt appreciations I received from my colleagues who supported me a lot throughout the tenure of my Thesis work.

I can not forget to mention my friends Sarin, Purvin, Vipul and Sharvil for their continuous help and moral boosting, who always remained behind but never away from the Thesis, feeling proud to be a friend of them.

Above all, it can not be sufficed to put any word for my lovingly mother, who has been the driving force of my life, my great (Late) father, a source of encouragement and guidelines, most lovingly brother and sisters who remained stand by before and every when I needed. Without their inspiration, incessant love, endless sacrifice, continuous encouragement, hard work and dedication towards me, this invention would have never been made possible. Thanking them is really a proud moment for me.
