Acknowledgement

Coming to the end of this work, it gives me an earnest pleasure to express my gratitude to all those who have made this thesis a reality and I will always be indebted to all of them.

It is my pleasure and privilege to acknowledge my guide and mentor Prof. (Mrs.) S. K. Menon who gave me the opportunity to undertake this research. It gives me immense happiness to laud her valuable guidance, moral boosting, motivation, optimism and patience that has enabled me to inch ahead.

Words seem to fail me, when I make this attempt to express my feelings to Prof. Y. K. Agrawal, Director, Nirma University of Science & Technology for his motivation, unparallel dedication and continuous encouragement.

It is my pleasure to acknowledge Prof. U. C. Pande, Head, Chemistry Department, Gujarat University for providing facilities.

I am also grateful to Dr. V. K. Jain, Reader, Chemistry Department, for his kind cooperation. I am indebted to Dr. Pranav Shrivastav, Reader, Chemistry Department, for his advice, support and tremendous cooperation shown through out my work.

I greatly acknowledge BARC Mumbai, CSMCRI Bhavnagar and CDRI Lucknow for providing me spectral data of samples. I further extend my thanks to entire staff of the Chemistry Department and INFLIBNET for kind co-operation and support.

It gives me earnest pleasure to mark my friends Hiten, Rinkoo, Rajul, Uma and lab mates for their unconditional help and support throughout my work.

I am highly indebted to my wife Jalpa who gave me courage to continue and fortitude to complete the work. I further extend my sincere thanks to her family members for their love, concern and patience.
I am indebted lifetime to my parents for their sacrifice, support and endless love; to my brother Ketan, Keyul and grandparents, I owe a large debt for being ever so loving, caring and supportive.

Hirpara Sanjay V.
