1. Structural, Thermal and Biological Studies of Cr(III), Co(II), Ni (II) and Cu(II) Complexes of Schiff Bases Derived from 4-Formyl-3-Methyl-1-Phenyl-2-Pyrazolin-5-One with Diaminies.

12th International symposium on Inorganic Ring Systems, goa, India, P-8
Author's Presentation

2. Synthesis, characterization, thermal studies and biological activity of transition metal complexes involving Schiff bases derived from 4-formyl-3-methyl-1-phenyl-2-pyrazolin-5-one with diamines.

43rd Annual Convention of Chemists, ING(OP)-69, Department of Chemistry, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad.

Indian Chemical Society.

Author's Publication

1. Synthesis, Characterization and Antibacterial Activity of Mn(II), Co(II), Ni(II) and Cu(II) Complexes of 4-Carboxaldehyde Phenylhydrazone-1-phenyl-3-methyl-2-pyrazolin-5-one
