ACKNOWLEDGEMENTS

I sincerely express my full sense of gratitude to my guide Dr.(Miss) N.J. Chinoy, Head, Department of Zoology, Director, School of Sciences, Gujarat University, Ahmedabad for familiarising me to this field of research and for her efficient guidance, inspiration and constant encouragement throughout this research work. I venerate her once again.

Thanks are also due to Dr. M.V. Rao, Reader, Department of Zoology, Gujarat University, Ahmedabad for his ready help and valuable advice throughout the tenure of the work.

A very special note of thanks is extended to Dr. Hyacinth Highland, Senior Lecturer, Zoology Department, Gujarat University, Ahmedabad, for her constant cooperation, keen interest and timely help whenever required. My special thanks are also due to Dr. Divya Chandel, Lecturer, Department of Zoology who cheerfully supported me all times during my research work.

I also owe my gratitude to Dr. B.C. Lakkad, Head, Cytogenetics Division, National Institute of Occupational Health, Ahmedabad, whose whole-hearted cooperation made the fluorescent microscopic studies possible.

I am deeply indebted to Dr. T.C. Anand Kumar, former Director, Institute for Research in Reproduction for selecting me for the workshop and training on ‘Recent Advances in Andrological Evaluation and Treatment of Male Infertility’ which gave a new fillip and orientation to my field of work.
The financial assistance by the award of Project Assistantship by University Grants Commission, New Delhi, under the Department Special Assistance Programme (DSA), is gratefully acknowledged.

I also wish to express my sincere thanks to Mrs. Bindu Khakkar for assistance in Electron Microscopic studies and Mr. Prashant Dholakia for photography. My heartfelt thanks to Mr. Nambiar who has very patiently and painstakingly typed out this thesis.

The willing co-operation, love and affection of my colleagues Ms. Deepti Mehta, Ms. Trupti Patel, Mr. Rafiq Memon and especially Ms. Arti Sharma who all have helped me a great deal in one way or the other and for their ready help and co-operation all throughout.

My sincere thanks are tendered to a great number of unmentioned friends, dear and near ones and well wishers for all the care, encouragement and moral support during my trying times.

Most of all, I thank my loving parents, Granny, Sister and Brothers who have always encouraged me and stood by me throughout the tenure of my work. I appreciate and place on record their sense of patience and sacrifice. I take this opportunity, especially to thank my mother because, I believe that ultimately, it was the strength of her faith in my ability that really saw me through this research work successfully.

(Sunita Chawla)
