ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude to Dr. M.S. Dubale, Department of Zoology, Gujarat University, Ahmedabad-380009, for suggesting the research project. I am greatly benefited by his continuous guidance, constant encouragement and constructive criticism throughout the course of my present research.

Professor Frank C.Kallen, Department of Anatomical Sciences, State University of New York at Buffalo, New York 14214, U.S.A., was kind enough to go through this work in greater details, offer constructive criticisms and also make valuable suggestions. I take this opportunity to thank him very sincerely for sparing his precious time and taking great interest in my work.

A part of the research was conducted at the Department of Biology, M.G. Science Institute, Ahmedabad-380009. I am grateful to Dr. J.J. Trivedi, Principal of the Institute for giving me necessary facilities.

Last but not the least, I wish to record my appreciation to all my colleagues and other friends who have helped me in completing this work.
