ACKNOWLEDGEMENT

First of all I would like to express my deepest gratitude to my respected guide Dr. R K Ranjan Principal, Gyan Ganga Institute of Technology & Sciences Jabalpur, Madhya Pradesh whose help, stimulating suggestions and encouragement helped me in all the time of Project work and writing of this Report. Right from day one he has been continuously encouraging him to work upon and has shown me path for real time research.

I would like to thank Hon’ble management of Shree L R Tiwari College of Engineering who has given me an opportunity to pursue higher education. I am thankful to all teaching and non teaching staff members of Shree L R Tiwari College Of Engineering, Mumbai for giving me permission to commence this project in the first instance, to do the necessary research work and to use departmental equipments. It is my deepest gratitude to my coordinator of Computer Science & Engineering Department at JJT University Mr. S K Meena whose guidance and support made this day possible.

I am very much thank full to my parents, my wife whose unconditional support, love and most importantly patience given me immense strength to write this thesis and see the dream of higher education.

I would like to express my gratitude to all those who gave me the possibility to complete this Project. I want to thank them for all their help, support, interest and valuable hints.

Ravi Prakash
