5.69 Mean scores of opinion of the subsamples on the use of modern audio-visual and ICT oriented equipment supplied by State Education Department

5.70 Mean scores of opinion of subsamples on the availability of Educational CD’s for effective curriculum transaction

5.71 Mean scores of opinion of subsamples of teachers on source books prepared and supplied by SCERT

5.72 Mean scores of opinion of subsamples of teachers on availability of learning materials from other sources

5.73 Mean scores of opinion of subsamples on Continuous and Comprehensive Evaluation System

5.74 Mean scores of opinion of subsamples on opportunities to watch select films and documentaries in Hindi

5.75 Mean scores of opinion of the subsamples on the functioning of Hindi Clubs in schools

5.76 Mean scores of opinion of Total Sample teachers about Constraints to the modernization of Hindi teaching

5.77 Mean scores of opinion of Male and Female teachers about
Constraints to the modernization of Hindi teaching

5.78 Mean scores of opinion of Government and Aided school teachers on Constraints to the modernization of Hindi teaching

5.79 Mean scores of opinion of Urban and Rural teachers about Constraints to the modernization of Hindi teaching.

5.80 Mean score of opinion of subsamples regarding reluctance of teachers to accept changes related to modern instructional practices

5.81 Mean score of opinion of the subsamples regarding lack of skills of teachers in student centred teaching

5.82 Mean score of opinion of subsamples of teachers on inclination heavily on translation method

5.83 Mean scores of opinion of subsamples on lack of proper knowledge among teachers regarding modern instructional methods, strategies and approaches.

5.84 Mean scores of opinion of subsamples on deficiency of teachers in communicating in Hindi effectively

5.85 Mean scores of opinion of subsamples on lack of proper co-operation among Hindi teachers in academic dispositions.

5.86 Mean scores of opinion of the subsamples on lack of in depth processing of instructional materials

5.87 Mean scores of opinion of subsamples on excessive workload for the teacher

5.88 Mean score of opinion of subsamples on lack of skills of teachers in effective class management

5.89 Mean score of opinion of the subsamples on lack of sufficient time allotted for curriculum transaction in Hindi

5.90 Mean score of opinion of the subsamples on lack of skills of teachers in utilizing the ICT devices effectively in the class room

5.91 Mean score of opinion of subsamples on lack of opportunities to develop computer software programmes in Hindi.

5.92 Mean scores of opinion of the subsamples on lack of cognitively rich reference material for teaching Hindi
5.93 Mean scores of opinion of subsamples on lack of Hindi books in the Panchayath/Municipal/Corporation library

5.94 Mean scores of the opinion of the subsamples on non-availability of Hindi newspapers and magazines in schools

5.95 Mean score of opinion of the subsamples on lack of necessary reading material in printed form

5.96 Mean score of opinion of the subsamples on use of bazar notes by students.

5.97 Mean score of opinion of subsamples on lack of proper instructional support related with the effective utilization of instructional materials

5.98 Mean score of opinion of the subsamples on inadequacy of pre-service training programmes conducted for Hindi teachers

5.99 Mean scores of opinion of the subsamples on lack of schematically aligned pedagogical practices and content information delivery in in-service courses.

5.100 Mean score of the subsample on lack of facilities for students to learn Hindi along with other performance tasks in their home.

5.101 Mean score of opinion of the subsamples on lack of productive parental support

5.102 Mean score of opinion of the subsamples on over loaded structural frame work of the syllabus

5.103 Average Weights obtained for Aspects of Facilitations from Paired Ranking by Five Experts in Hindi Teaching in the Schools of Kerala

5.104 Average Weights obtained for Aspects of Constraints from Paired Ranking by Five Experts in Hindi Teaching in the Schools of Kerala

5.105 Comparison of Sub sample based on Facilitations to the Modernization of Hindi teaching in the schools of Kerala

5.106 Comparison of the Subsamples based on Constraints to the Modernization of Hindi teaching in the schools of Kerala

5.107 Comparison of Scores of Facilitations and Constraints to the Modernization of Hindi Teaching in the Schools of Kerala

5.108 Mean and Standard Deviation of Marks Obtained by Students for
Achievement Test

5.109 Pre and Post mean scores of experimental and control groups by type of school

5.110 The results of Test of Significance of the Difference between the Means of Pre-test Scores of Role Play Model Group and the Control Group on Academic achievement

5.111 The Results of Test of Significance of the Difference between the Means of Post-test Scores of Role Play Model Group and the Control Group on Academic achievement

5.112 The Results of Test of Significance of the Difference between the Means of Pre-test Scores of the Synectics Model Group and the Control Group on Academic achievement

5.113 Pre and Post Test Score of Experimental and Control groups

5.114 Analysis of Covariance

5.115 The Results of Test of Significance of the Difference between the Means of Pre-test Scores of the Inquiry Training Model Group and the Control Group on Academic achievement

5.116 The Results of Test of Significance of the Difference between the Means of Post-test scores of Inquiry Training Model Group and the Control Group on Academic achievement

5.117 The Results of the Test of Significance of Pre-test Scores of students in the Role Play Model Group based on Type of Institution towards Academic achievement

5.118 The Results of the Test of Significance of Post-test Scores of students in the Role Play Model Group based on Type of Institution towards Academic achievement

5.119 The Results of the Test of Significance of Pre-test Scores of students in the Synectics Model Group based on Type of Institution towards Academic achievement

5.120 The results of the Test of significance of Post-test scores of students in the Synectics Model group based on Type of Institution towards Academic achievement

5.121 The Results of the Test of Significance of Pre-test Scores of
students in the Inquiry Training Model Group based
on Type of Institution towards Academic achievement 307

5.122 The results of the Test of significance of Post-test scores of
students in the Inquiry Training Model group based
on Type of Institution towards Academic achievement 308

5.123 The results of the Test of significance of Pre-test scores of students
in the control group based on Type of Institution towards
Academic achievement 308

5.124 The results of the Test of significance of Pre-test scores of students
in the control group based on Type of Institution towards
Academic achievement 309

5.125 Comparison of the Pre-Test scores of the Experimental Groups
(Role Play Model, Synectics Model Inquiry Training Model) and the
Control Group 309

5.126 Comparison of the Post-Test scores of Experimental Groups (Role
Play Model, Synectics Model and Inquiry Training Model) and the
Control Group 310
