Chapter 1
INTRODUCTION ................................................................. 01 - 45

1.1 Introduction ................................................................. 01
1.2 Employment rate in India ............................................. 03
  1.2.1 Unemployment of women ....................................... 04
1.3 Importance of Rural Development ................................ 05
1.4 Poverty alleviation Programmes in India ....................... 05
  1.4.1 Micro-finance ...................................................... 06
  1.4.2 Self-Help Groups ................................................. 07
1.5 Review of Earlier Studies ............................................. 29
1.6 Research Gap ............................................................. 25
1.7 Scope and importance of the study .............................. 25
1.8 Statement of the Problem ........................................... 27
1.9 Period of survey ......................................................... 28
1.10 Period of reference .................................................... 28
1.11 Objectives ................................................................. 28
1.12 Hypotheses ............................................................... 29
1.13 Research methodology .............................................. 29
  1.13.1 Source of data .................................................... 30
  1.13.2 Research approach ............................................. 30
  1.13.3 Research instrument .......................................... 30
  1.13.4 The population .................................................. 31
  1.13.5 Sampling design ............................................... 32
  1.13.6 Pilot study ........................................................ 32
  1.13.7 Sample size ....................................................... 33
1.14 Tools used for analysis ............................................... 34
1.15 Important terms and concepts used ............................ 36
1.16 Limitations of the study ............................................ 39
1.17 Schemes of presentation ............................................ 39
References ................................................................. 40

Chapter 2
THEORETICAL FRAMEWORK OF THE STUDY .................. 47 - 91

2.1 Introduction ............................................................... 47
2.2 Micro finance and Self-Help Groups in India .................. 49
2.3 Income-generation activities of SHGs ............................ 59
2.4 Swarnjayanti Gram Swarojgar Yojana ......................... 60
2.5 Marketing Initiatives under SGSY ................................. 62
Chapter 3
PROFILE AND FINANCIAL DETAILS OF SHGs ..................................................93 - 118

3.1 Sample profile and enterprise details of SHGs ................................. 93
  3.1.1 District-wise starting year of SHGs ............................................... 94
  3.1.2 Present membership of SHGs ..................................................... 95
  3.1.3 Place of residence of SHG members ........................................... 96
  3.1.4 Prior occupation of SHG leaders ............................................... 97
  3.1.5 Educational level of SHG leaders ............................................. 98
  3.1.6 Reason for selecting different activities ....................................... 99
  3.1.7 Nature of economic activity of SHG ........................................... 102
  3.1.8 Time spent for the enterprise ................................................... 103
  3.1.9 Nature of time spent for the enterprises-Unit-wise ..................... 104

3.2 Financial details of SHGs ................................................................... 104
  3.2.1 Monthly income level of SHG members ...................................... 105
  3.2.2 Place of residence-wise monthly income of SHG members ......... 107
  3.2.3 Banks linked with SHGs- District-wise ...................................... 107
  3.2.4 Cross-tabulation of place of residence-wise bank category .......... 109
  3.2.5 District-wise distribution of type of loan arrangement .................. 109
  3.2.6 Cross-tabulation of place of residence-wise type of loan arrangement ................................................................. 110
  3.2.7 District-wise amount of loan from bank .................................... 111
  3.2.8 Cross-tabulation of place of residence-wise amount of loans from banks ........................................................................ 112
  3.2.9 District-wise average interest on loans ...................................... 113
  3.2.10 Cross-tabulation of place of residence-wise interest on loans ........ 114
  3.2.11 Value of fixed assets created by Self-Help Groups .................... 114
  3.2.12 Cross-tabulation of place of residence-wise value of fixed assets created ........................................................................... 116

3.3 Conclusion ....................................................................................... 117
References .......................................................................................... 118
Chapter 4
FINANCIAL AND PRODUCTION PROBLEMS OF SELF-HELP GROUPS .......... 119 - 171

4.1 Financial problems ................................................................. 120
4.1.1 Analysis of financial Problems (Across three districts) .......... 120
4.1.2 Analysis of financial Problems (Prior occupation-wise) ......... 125
4.1.3 Analysis of financial Problems (Activity-wise) .................... 128
4.1.4 Discriminant analysis ......................................................... 133
4.1.5 Discriminant Analysis between urban and rural areas .......... 134

4.2 Production problems ............................................................. 137
4.2.1 Analysis of Production Problems (Across three districts) ... 137
4.2.2 Analysis of Production Problems (Across Place of residence) .. 143
4.2.3 Analysis of Production Problems (Activity-wise) ............ 147
4.2.4 Discriminant analysis (Production) .................................... 151
4.2.5 Discriminant Analysis between Urban and Rural areas ....... 152

4.3 Evaluation of agencies promoting production processes of
SHGs in Kerala ........................................................................... 156
4.3.1 Factor analysis ................................................................. 156
4.3.2 Technology and Cost Reduction ....................................... 161
4.3.3 Production Management .................................................. 163
4.3.4 Production Safety ............................................................ 165
4.3.5 Training ............................................................................. 166
4.3.6 Subsidies and Product improvement ................................ 168

4.4 Conclusion .......................................................................... 169
References .................................................................................. 171

Chapter 5
MARKETING PROBLEMS OF SELF-HELP GROUPS IN KERALA .......... 173 - 222

5.1 Marketing details of SHGs ....................................................... 173
5.1.1 District-wise Nature of Market ......................................... 173
5.1.2 Cross-Tabulation of Place of residence-wise nature of market .. 174
5.1.3 Where they Sell the Products (Place of residence-wise) ...... 175
5.1.4 Channels of Distribution opted in the domestic market
   (Place of residence-wise) ........................................................ 176
5.1.5 Cross-Tabulation of District-wise Methods of
   Transportation Used for Distribution of Products ................. 177
5.1.6 Transportation problems .................................................. 178
5.1.7 Agency undertaking the marketing of the products
   (Place of residence-wise) ......................................................... 181
5.1.8 Cross-Tabulation of Place of residence-wise Number
   of sales people employed ..................................................... 182
5.1.9 Nature of Tasks assigned to Sales people ......................... 183
5.1.10 Promotion Practices followed by SHGs ......................... 185
5.1.11 Pricing method followed by Self-Help Groups ................ 187
5.1.12 Factors influencing Pricing of the products .................... 188
