ACKNOWLEDGMENT

Appreciation beyond words is due to Dr. K.G. Desai, Director, University School of Psychology, Education and Philosophy, Gujarat University, Ahmedabad, for his competent guidance, opportune suggestions and continuous reinforcement at every step of the research. It goes without saying that without his peerless contribution, this work would not have envisaged fait accompli.

My special thanks are due to Dr. B.U. Pareekh, ex-Director, Gujarat Board of School Text Books, for his off and on suggestions in carrying out the investigation.

I am also thankful to Dr. J.H. Shah, Reader, University School of Psychology, Education and Philosophy, Gujarat University, Ahmedabad, for his most valuable suggestions in construction of the tools of the study.

My feeling of gratitude is due to all the Principals, teacher educators including teacher fellows, student teachers, headmasters, and cooperating teachers who extended their wholehearted cooperation in the consummation of the work.

I am most indebted to the management of S.D.J. P.G. College Chandeswar for relieving and providing me
the opportunity to undertake this adventure.

Finally, it is with much pleasure that I take the opportunity of expressing my gratitude to U.G.C. for dispensing economic assistance in the completion of the work.
