ACKNOWLEDGEMENT

To my esteemed guide Dr. D.D. Santani, B.Pharm., M.Sc. (Medicine), Ph.D., P.G.D.B.M., Prof. and Head of the Department of Pharmacology, I wish to express my sincere gratitude for his unceasing encouragement, timely help so often sought and so generously given throughout this investigation. Whatever little I know about research design and solution to a scientific problem is because of his constructive guidance, useful criticism and logical thinking which helped me to obtain a logical conclusion in my thesis. Above all, his unbiased observation in all kinds of works inspired me a great deal to arrive at a proper conclusion. It is a pleasure and privilege for me to acknowledge gratefully the interest and attention so generously lavished by him.

I am greatly indebted to Dr. N.S. Parmar, M.Pharm., M.Sc. (Medicine), Ph.D., Prof. of Pharmacology and Asst. Director, Shri B.V. Patel PERD Centre, Ahmedabad, for his persistent countenance bestowed upon me. Without his help, it would have been an uphill task for me to reach this summit. I am extremely grateful to him not only for his suggestion for selection of the field of work for Ph.D. programme, but also for material providing important resource. Words are not adequate to express the crucial nature of interactive help I have received from this learned personality. Without whose help and co-operation, it could have perhaps not been possible to handle the subject with a clarity of mind and purpose.
With great pleasure, I acknowledge my indebtedness to Dr. C.J. Shishoo, B.Pharm., M.S.(Iowa), Ph.D., Principal and Professor of Pharmaceutical Chemistry, for providing necessary facilities.

I am thankful to Dr. R.K. Goyal, M.Sc.(Medical), Ph.D., Associate Professor of the Department of Pharmacology for inspiring me to go in for the Ph.D. programme and for extending helping hands.

I am profoundly grateful to my family members for their kind co-operation and boosting my confidence and moral that is essentially required at many occasions.

I will be failing in my duty if I fail to express my sincere thanks to Mr. B. Ravishankar, Pharmacologist, Gujarat Ayurvedic University, P.G. Centre, Jamnagar, for his timely help in providing chemicals and other useful material.

I am highly obliged to Mrs. Madhaviben Desai, Computer Programmer, for the selfless efforts in doing the artistic work.

My thanks are also due to Dr. B.N. Suhagia, Dr. Ila T. Patel, Mrs. Jagruti Patel, Mr. Shivprakaash and all other colleagues who were always prepared to extend their ever-ready helping hands in need.
I must also thank Mr. R.S. Shah, for his extensive help in procurement of chemicals required for the study.

I thank Mr. B.C. Patel, for doing neat, clean and clear typing work of the thesis with sincerity and interest.

The help rendered by Shri Shivabhai, Animal Attendant also deserves sincere appreciation.

My sincere thanks are also to M/S. Cadila Laboratories Pvt. Ltd., Ahmedabad and M/S. Torrent Laboratories Pvt. Ltd., Ahmedabad, for supplying gift samples of drugs.

Department of Pharmacology, L.M. College of Pharmacy, Ahmedabad-380 009.
