II. STUDY OF SEXUAL PATTERNS IN RELATION TO SOCIO-PERSONAL FACTORS

PATTERNS AND INFLUENCING SOCIO-PERSONAL FACTORS

4.15 't' ratio for the percentages of women in V and C pattern. 137
4.16(a) 't' ratio for the style of marriage and pattern. 137
(b) 't' ratio for patterns in relation to love marriage and arrange marriage. 138
4.17(a) 't' ratio for patterns in relation to age. 141
(b) 't' ratio for patterns in relation to younger and older age group. 142
4.18(a) 't' ratio for patterns in relation to educational status group. 144
(b) 't' ratio for patterns in relation to graduate and post-graduate level of education. 144
4.19(a) 't' ratio for patterns in relation to occupational status. 146
(b) 't' ratio for patterns in relation to working and non-working group. 147
4.20(a) 't' ratio for the patterns in relation to income status. 149
(b) 't' ratio for the patterns in relation to under and above 50,000 per year income group. 149

III. STUDY OF SEXUAL PATTERNS IN RELATION TO FOREPLAY TECHNIQUES AND SOCIO-PERSONAL FACTORS

4.21 't' ratio for patterns and foreplay techniques used. 157
4.22 't' ratio for foreplay techniques used in V and C Pattern in relation to style of marriage. 153
4.23 't' ratio for patterns and use of less varieties of foreplay or more in relation to love marriage and arrange marriage.

4.24 't' ratio for style of marriage and use of less foreplay techniques or more in V and C Pattern.

4.25 't' ratio for use of less and more varieties of foreplay techniques with love marriage or arrange marriage in each pattern.

4.26 Percentage of varieties of foreplay techniques according to style of marriage in each pattern.

4.27 't' ratio for foreplay techniques used in V and C Pattern in relation to age.

4.28 't' ratio for patterns and use of less varieties and foreplay techniques or more in relation to younger and elder age group.

4.29 't' ratio for age group and use of less or more varieties of foreplay techniques used in relation to V and C Pattern.

4.30 't' ratio for use of less and more varieties of foreplay techniques with younger and elder age in each pattern.

4.31 Percentages of varieties of foreplay techniques used according to age group in each pattern.

4.32 't' ratio for foreplay used in V and C Pattern in relation to educational status.

4.33 't' ratio for patterns and use of less varieties of foreplay techniques or more in relation to graduate and post-graduate women.

4.34 't' ratio for educational status and use of less or more varieties of foreplay techniques used in relation to V and C Patterns.

4.35 't' ratio for use of less and more varieties of foreplay techniques with graduate and post-graduate women.
4.36 Percentages of varieties of foreplay techniques used according to educational status in each pattern.

4.37 't' ratio for foreplay techniques used in V and C Pattern in relation to occupational status.

4.38 't' ratio for patterns and use of less varieties of foreplay techniques or more in relation to working and non-working women.

4.39 't' ratio for occupational status and use of less or more varieties of foreplay techniques used in relation to V and C Pattern.

4.40 't' ratio for use of less and more varieties of foreplay techniques with working and non-working group.

4.41 Percentages of varieties of foreplay techniques used according to occupational status in each pattern.

4.42 't' ratio for foreplay techniques used in V and C Pattern in relation to occupational status.

4.43 't' ratio for patterns and use of less varieties of foreplay techniques or more in relation to under and above 50,000 per year income group.

4.44 't' ratio for income status and use of less or more varieties of foreplay techniques used in relation to V and C Pattern.

4.45 't' ratio for use of less and more varieties of foreplay techniques with under and above 50,000 per year income group.

4.46 Percentages of varieties of foreplay techniques used according to income status in each pattern.
IV. STUDY OF SEXUAL PATTERNS IN RELATION TO
ORAL SEX AND SOCIO-PERSONAL FACTORS

4.47 't' ratio for practice of oral sex - fellatio and cunnilingus. 227
4.48 't' ratio for willing and unwilling participation of oral sex. 227
4.49 't' ratio for practice of oral sex and pattern. 229
4.50 't' ratio for practice of oral sex in relation to style of marriage in each pattern. 203
4.51 't' ratio for age group and practice of oral sex. 231
4.52 't' ratio for age group in relation to practice of oral sex in each pattern. 232
4.53 't' ratio for patterns and age group in relation of practice of oral sex. 235
4.54 't' ratio for educational status and practice of oral sex. 237
4.55 't' ratio for educational status in relation to practice of oral sex in each pattern. 237
4.56 't' ratio for patterns and educational status in relation to practice of oral sex. 240
4.57 't' ratio for occupational status and practice of oral sex. 242
4.58 't' ratio for occupational status in relation to practice of oral sex in each pattern. 242
4.59 't' ratio for patterns and occupational status in relation to practice of oral sex. 244
4.60 't' ratio for income status of women in relation to practice of oral sex. 245
4.61 't' ratio for income status in relation to practice of oral sex in each pattern. 245
4.62 't' ratio for patterns and income status in relation to practice of oral sex. 248
V. STUDY OF SEXUAL PATTERNS IN RELATION TO FREQUENCY OF SEXUAL INTERCOURSE AND SOCI-PERSONAL FACTORS

4.63 Chi-square analysis of frequency distribution of sexual intercourse in relation to style of marriage. 250
4.64 Chi-square analysis of frequency of distribution of sexual intercourse in relation to age group of women. 259
4.65 Chi-square analysis of frequency of distribution of the sexual intercourse in relation to educational status. 267
4.66 Chi-square analysis of frequency of distribution of the sexual intercourse in relation to occupational status. 278
4.67 Chi-square analysis of frequency of distribution of the sexual intercourse in relation to income status. 286

VI. STUDY OF SEXUAL PATTERNS IN RELATION TO TIME TAKEN IN SEXUAL ENCOUNTER AND TIME DURATION OF ORGASM

4.68 Correlation Coefficient between total time taken in sexual encounter and time duration of orgasm in relation to patterns. 293
4.69 Correlation Coefficient between total time taken in sexual encounter and time duration of orgasm in relation to frequency of orgasm. 294
4.70 Correlation Coefficient between total time taken in sexual encounter and time duration of orgasm in relation to pornography. 296
VII. STUDY OF SEXUAL PATTERNS AND SOCIO-PERSO-NAL FACTORS IN RELATION TO TOTAL TIME TAKEN IN SEXUAL ENCOUNTER AND TIME DURATION OF ORGASM

4.71 Correlation Coefficient between total time taken in sexual encounter and time duration of orgasm in relation to style of marriage in each pattern.

4.72 Correlation Coefficient between total time taken in sexual encounter and time duration of orgasm in relation to age group in each pattern.

4.73 Correlation Coefficient between total time in sexual encounter and time duration of orgasm in relation to educational status.

4.74 Correlation Coefficient between total time taken in sexual encounter and time duration of orgasm in relation to occupational status.

4.75 Correlation Coefficient between total time taken in sexual encounter and time duration of orgasm in relation to Income Status.
