ACKNOWLEDGEMENTS

I express my sincere gratitude and thankfulness to my guide Dr. Udai Pareek, Senior Professor, Indian Institute of Management (IIM), Ahmedabad, for his unfailing interest and inspiring guidance in the preparation of this thesis. In spite of his extremely busy schedule he always spared time for me. His guidance, precious and genial, spurred me on, in my work.

I am indebted to many who have contributed to this work, in one form or another. Professor V. Padaki, IIM, Bangalore, was the original instigator and inspirer of this work. Dr. P. K. Shrivastava, Head, Human Relations Division, ATIM showed keen interest in the GATE project and provided necessary encouragement and facilities. Dr. C. T. Bhopatkar, Head, Department of Psychology, Gujarat University, and Dr. B. N. Mukherjee, Joint Director of Research, Council for Social Development, Delhi, offered many valuable and critical comments.

My special thanks are due to U.S. Department of Labour, Employment and Training Administration, in general, and to late Dr. Beatrice Dvorak, Mr. Robert Droge, and Mr. John Hawk, in particular, for the training I received from them while I was in United States, and for their guidance and encouragement in our GATE research.
I am specially indebted to Dr. P. C. Mehta, Director, ATIRA, for the keen interest he has been showing in the GATE project from the beginning, and for permitting me to submit this work for the Ph. D. Degree.

I acknowledge the help and co-operation of Mrs. Parma Patel and Mr. Rajiv Sharma in the various phases of this work. I also acknowledge the help of Mr. S. P. Deshpande, and Mr. C. H. Trivedi of ATIRA, and Mr. C. S. R. Murthy, of Physical Research Laboratory, Ahmedabad, in solving statistical problems and computer analysis of data.

My thanks are also due to Mrs. Radhika Ramasheshan of IIM, Ahmedabad for editing the manuscript, and to Mr. M. S. Pandya for stencil cutting of the thesis with remarkable accuracy and neatness.

A. M. DOLKE
