DECLARATION

I hereby declare that the conceptual framework of the thesis has been developed and based on the literature survey as shown in the reference.

I have quoted some equation methods, preparations and other information directly from various books, journals and other sources.

Apart from this all the investigations, interpretations, and conclusion of the tabulated results have been my own and original.

Moreover, I declare that for the work done in the thesis neither this university nor any other university has conferred the degree, diploma or distinction before me.
