CONTENTS

Preface .. .. .. i - iii
Synopsis .. .. .. i - xii
Contents .. .. .. xiii - xvi
List of tables .. .. .. xvii - xviii
List of figures .. .. .. xix - xxi
List of Photographs .. .. .. xxii

I. General Introduction .. .. 1 - 40

1.1 History .. .. 1

1.2 Sodium silicate 3

1.3 Colloidal silica and silicates 6

1.4 Lime-silica-water system 7

1.5 Hydrated calcium silicate 10

1.6 Interaction of lime-silica-water 16

1.7 Reaction of calcium hydroxide and colloidal silica 18

1.8 Precipitated silica 27

1.9 Surface chemistry of silica and silicates 29

1.10 General aspects on pore volume and pore size distribution 32

1.11 Surface structure of silica and silicates 34
1.12 Objective and abstract of thesis 39

II. Apparatus and Procedure 41 - 59

2.1 Chemical analysis 41
2.2 Dehydration estimations 43
2.3 Hydration estimations 44
2.4 Differential thermal analysis (DTA) 45
2.5 pH determinations 47
2.6 Surface area measurement by nitrogen gas adsorption method 49
2.7 Determination of pore volume 55
2.8 Determination of pore diameter and pore size distribution 56
2.9 Determination of water adsorption desorption isotherms 56
2.10 Oil absorption test 58
2.11 Specific gravity determination 59
2.12 Bulk density determination 59

III. Preparation of Hydrated Calcium Silicates and Precipitated silica 60 - 81

3.1 Raw materials 60
3.2 Hydrated calcium silicate by the reaction of marine gypsum and sodium silicate 64

6. Precipitated silica by polymerisation of active silica 131 - 151

   6.1 Study of pH 131
   6.2 Nature of precipitated silica 132
   6.3 Hydration - dehydration 133
   6.4 DTA data 135
   6.5 Surface chemistry of precipitated silica 138

7. Conclusion from the comparative study of mechanism of reactions and surface chemistry 162 - 162

   7.1 Mechanism of reactions 152
   7.2 Surface chemistry 156

V. Applications of Reactions Leading to Processes for manufacture of hydrated calcium trisilicates and precipitated silica 163 - 171

   8.1 General 163
   8.2 Process details 163
   8.3 Material balance 165
   8.4 Cost estimation and conclusion 165

Acknowledgement .. I 172

VI. Bibliography .. I 173 - 182
