CHAPTER

1 INTRODUCTION

- Some Educational Plans to Individualized Instruction
- Programmed Learning Plan
- The Present Study
- Statement of the Problem
- Objectives and Hypothesis
- Assumptions and Limitations
- The Scheme of Chapterization

II THEORETICAL BACKGROUND OF PROGRAMMED LEARNING

- The Meaning of Programmed Learning
- Definitions of Programmed Learning
- New Trends in Educational Technology
- Meaning of Educational Technology
- Contribution of the Prominent Thinkers
- Essential Features of Programmed Learning
- Special Features of Programmed Learning
- Psychological Foundation of Programmed Learning
- Needs of Programmed Learning
- Type of Programmed Learning
- Preparation of Programme
- How should a programme be developed?
- The task analysis
- Evaluating Programmed Materials
- Teaching machines versus programmed text-books
- Programming versus conventional methods
- Difference between programmed text book and a work book
- Difference between the programmed text book and a text book
- Difference between the programmed text book and a test
- Possible advantages and disadvantages of using Programmed Learning Materials.

III REVIEW OF THE PAST STUDIES AND WORK DONE IN THE FIELD

- Areas of research
- The comparative studies of programmed learning and conventional teaching.
- Studies in India
- Some observations on research results
- Recent trends of researches in Programmed Learning
- Brief review of the work done in Programmed Learning in different countries
- Significance of the research work done
PLANNING AND PREPARATION OF PROGRAMMED MATERIALS

- The 'New' Mathematics
- Objectives of auto instructional programmes
- Concepts and teaching points
- Steps of preparing programmed learning materials
- Unit formation
- The self evaluation
- The technique of the programming
- Editing the programmes
- Pilot Try-out and modifications in the programmed materials.

TRY OUT AND FINALIZATION OF PROGRAMMED MATERIALS

- Sequence of frames and programmed characteristics
- Revision of frames
- Initial try out of the frames
- Pre-try out
- Preparation of programmes for field testing
- Try out on a large sample
- Final version of the programmes

EXPERIMENTAL DESIGN

- Objectives and Hypothesis
- Sample clarification
- Matching the schools on initial test results
APPENDICES

A - List of Experimental and Controlled schools
B - Modern Geometry for Std. IX Through Programmed Learning

Gujarati version

1. Pre-Test
2. Entering behaviour
3. Programmes Unit 1 to 17
4. Post-Test

English version

1. Pre-Test
2. Entering behaviour
3. Programmes Unit 1 to 17
4. Post-Test

Questionnaire to know views of the teachers teaching according to P.L.M.
