ACKNOWLEDGEMENT

I take this opportunity to place on record my deep sense of gratitude to Dr. S.G. Desai, Professor and Head, Department of Microbiology, School of Sciences, Gujarat University, who has been a continuous source of inspiration throughout my research career. His great experience and in-depth knowledge on science of microbiology, his clear and penetrating approach dealing with microbiological researches and having been associated with international bodies of scientists needs no introduction. I am fortunate in having him as my guide and it is with his affectionate admonition that I have been able to complete this work which in the beginning, looked such as arduous task.

I am thankful to Dr. M.F. Mullakhanbhai, Manager, Research and Development, Chemistry Research Centre, Vapi, Gujarat whose commentaries, critical views, practical approach and valuable guidance have added many new materials under various chapters of this thesis.

I am sincerely grateful to Dr. N.K. Yadav, Dr. S.R. Dave and Dr. B.V. Patel for their active guidance and very valuable suggestions. My special thanks are also due to Dr. V.N. Upasani, Dr. B.R.M. Vyas, Dr. B.N. Yagnik, Mr. A.D.
Darji, Ms. S.P. Pandya, Mr. R.J. Patel and Ajit Menon - all colleagues, for having helped in preparation of the present work.

I acknowledge with thanks the financial assistance provided by Council of Scientific and Industrial Research, New Delhi through Junior Research Fellowship and Senior Research Fellowship in Life Sciences.

I am indebted to Prof. A.B. Vora, Dr. O.P. Saxena, Prof. V.C. Shah, Prof. Y.K. Agrawal, Dr. U.M. Raval and Prof. N.J. Chinoy for their support in allowing laboratory facilities and research guidance.

I acknowledge Dr. D.S. Pradhan and Dr. Wijaya Altekar - both of Bhabha Atomic Research Centre, Bombay for their help and guidance in study of Protein Purification. Dr. M. Madamwar, Reader, Dept. of Biosciences, Sardar Patel University, Vallabhbidiyanagar is acknowledged for his help in study of pigments.

My grateful thanks are due to Dr. A.D. Agate, Director, M.A.C.S. Research Institute, Pune and Dr. (Mrs.) Sabita Dey for their invaluable discussions and suggestions in techniques for DNA isolation and characterization.
My thanks are also due to Fr. Brigenza, Director, Loyola Research Centre and Mr. Parimal Sheth of St. Xavier's College, Ahmedabad for extending laboratory facilities for spectral analysis. I am indebted to Mr. B.C. Lakkad, National Institute of Occupational Health for his help in phase contrast microscopy, Mr. V.G. Shah, Physical Research Laboratory for SEM Microphotographs, Mr. Ketan Desai, Central Laboratory, Gujarat University, for instrumentations and Mr. Prashant Dholakia for Photographical work.

I shall be failing in my duty if I do not record the unstinted support and significant contributions of Prin. N.V. Pandya, Prof. P.J. Soni, Head, Dept. of Microbiology and other colleagues at R.G. Shah Science college, Ahmedabad. I am most thankful to them for their counselling.

I thank the non-teaching staff members of my Department Mr. B.R. Trivedi, Mr. R.K. Parikh and Ms. D.S. Shah for helping me in easy maintenance of my store and office work. I also thank Mr. Khandubhai, Mr. Dharamshibhai and Mr. Kanjibhai who have helped me a lot.

Mr. B.D. Raval, Ms. Smita Pathak and Ms. Vaidehi Pandya have done their best in helping me complete all my computing and typing work.
Lastly, I express my most sincere thanks to all my family members and all those who in some way, have extended their help and co-operation to me.

(Miss) S.C. Pandya
