ACKNOWLEDGEMENTS

The work presented in this thesis was carried out under the guidance of Professor V.A. Sarabhai. I am grateful to him for the guidance and the encouragement he has given throughout the period of my work.

It is a pleasure to acknowledge the useful discussions I had with Dr. A.J. Dessler during his visit to the Physical Research Laboratory in 1961-62. Thanks are also due to Dr. R.P. Kane, Dr. G.L. Pai and Mr. G. Subramanian for their useful discussions and help.

The help rendered by the staff of the Computation Section and in particular by Mr. P.K. Shah and Mr. H.S. Panchal is gratefully acknowledged.

The project under which the present investigation was carried out has been supported by the Department of Atomic Energy, Government of India. In this initial stages, the author was a Senior Research Scholar of the Government of India. These are gratefully acknowledged.
