ACKNOWLEDGEMENT

At the very outset I thank the Almighty for his mercy and blessings on me, to be present in the midst of noble souls in this world.

I am deeply indebted to my teacher and research supervisor Dr M Patrick Gomez for his invaluable guidance and constant encouragement throughout the period of this study. The varied and rich experience, the directions and the valuable suggestions given by him from time to time have helped me immensely, from the selection of the topic till the completion of my work. I am ever grateful for the opportunities he has given to me.

I express my heartfelt gratitude to Rev Fr J John Britto SJ Secretary and Former Principal, St. Joseph’s College, Tiruchirappalli, who gave me an opportunity to study in this college.

I owe my sincere thanks to Rev Fr Rajarathinam SJ, Principal, Rev Fr Joseph SJ (Vice-Principal & Former Secretary), Rev Fr Leonard SJ (Former Principal), Rev Fr Selvanayagam SJ (Former Secretary), St. Joseph’s College, Tiruchirappalli for their support and the facilities offered at the college for the conduct of this study.

I express my sincere thanks to Rev Fr Antonysamy SJ (Former Deputy Principal) St. Joseph’s College, Tiruchirappalli, for his prayers and encouragement to complete my thesis successfully.

My sincere thanks are due to my doctoral committee member Dr M Krishnan Head, Dept of Environmental Biotechnology, Bharathidasan University, Tiruchirapalli for his constructive criticism and useful suggestions throughout the course of this study.

I register my sincere thanks to Dr G Melchias Reader, Dept. of Plant Biology & Plant Biotechnology, SJC, Tiruchirappalli, whose suggestions, encouragements and supportive nature helped me throughout the time of research and writing the thesis.

I would like to place on record my respect and gratitude to my Uncle Dr Pitchai Sangan USA, for his constant support and encouragement given throughout the course of this study.

I would like to thank the staff members of the departments of Biochemistry, Plant biology and Plant Biotechnology and Biotechnology, SJC for all the help rendered to me. My sincere thanks are to Dr R Selvaraj (Former HOD, Botany) and
Dr VMA Kadir (Former HOD, Biochemistry) St. Joseph’s College, Tiruchirappalli for their encouragements given to me during the course of this study.

I thank my friends Mr D Kandavel, Dr PG Biju, Mr A Benno and Dr J Antony Velanganni for their valuable help rendered during the course of this study. I wish to express my sincere thanks to Dr S Soosai Lecturer, Dept of PB & BT, St. Joseph’s College, Tiruchirappalli, who helped me in computer work.

I also thank Packia Doss (Retd.) and S Ganesan Lab assistants, Dept of Biochemistry for their valuable help rendered to me during the course of this study.

I place on record my thanks to Dr Leenus, USA, Dr Palsamy, Daniel Andrew and Mr Karthik Dhanaraj for their help rendered to me during the course of this study.

I owe my sincere thanks to Dr K Balakrishnan MBBS, MD, Pathologist, GVN Hospital, Tirucirapalli for assisting me in histological studies. I also want to thank Mrs Stella, Biochemist, KAPV Medical College and Hospital, Tiruchirapalli for the help she rendered.

I gratefully acknowledge Sophisticated Analytical Instrumentation Facility (SAIF), Indian Institute of Technology, Chennai, for carrying out MALDI-TOF-MS studies.

I express my sincere thanks to Dr Christine Gomez for her concern and prayers.

I take this moment to express my heartfelt gratitude to my late parents for their constant encouragement and loving support.

“Dear Appa and Amma you helped me to achieve a lot in my life. From the bottom of my heart, a bounty of gratitude flows for you always, for having supported me and given me all that I had asked for, for all the comfort in life, for the wonderful education and finally for all the love you had showered on me. I will remember that you stood by me every time I needed a shoulder. Thank you mom and dad”.

I also thank my sisters, and brothers-in-law for their constant support and motivation. Last but not the least; I would like to thank my wife for her faithful support during the final stages of this programme and my two little son's patient love which enabled me to complete this work.

With gratitude
