Chapter-2

Aim and Objectives
AIM AND OBJECTIVES

Aim

To study the incidence, causes, management and outcome of adult cardiac arrests in a tertiary referral hospital.

Objectives of the study

1. To document the incidence of in-hospital cardiac arrest in our hospital
2. To document the various causes leading to in-hospital cardiac arrest in our hospital
3. To determine the clinical outcome of in-hospital cardiac arrest in the hospital
4. To evaluate the variables affecting survival rates following cardiopulmonary resuscitation in our hospital set-up
5. Comparison of the In-hospital cardiac arrests before and after introduction of Modified early warning score.
