Acknowledgment

This endeavor would have been impossible without the help of many people. I would like to convey my heartfelt thanks to them in my simple words.

I express my sincere thanks to my guide, Dr. Anitha Shenoy, Professor and Head Department of Anaesthesiology, KMC, Manipal for her kind acceptance to be the guide for this thesis. I am grateful for her constant support, enthusiasm and guidance. She helped me to evolve as an independent researcher, while providing support and encouragement at every stage. Her constructive criticism and appropriate directions during difficult stages of this study has helped me to complete this work. I express my special gratitude and affection towards her. I thank her for building confidence in me in the area of Cardiopulmonary resuscitation.

I extend my gratitude to Dr. B. Rajshekhar, Dean, School of Allied Health Sciences for allowing me to conduct this research and also for the constant support and encouragement that he has given to me. I extend my sincere thanks to Dr. Arun. G. Maiya, Former Associate Dean and Dr. Sabu K.M the current Associate Dean, School of Allied Health Sciences for their support and encouragement.

I thank from the bottom of my heart the patients involved in the study, their relatives, doctors, nurses and respiratory therapists who were involved in the resuscitation of these patients for their valuable service and help for the conduct of this study. I also thank HODs of Department of Medicine, Surgery, Orthopaedics, Neurology, ENT and Dermatology for the use of Early Warning Score in their patients.

I am thankful to the Medical Superintendents and Nursing Superintend of Kasturba Hospital, Manipal, Dr. Sudhakar, Dy. Medical Superintendent, and Quality Management Representative, K.H, Manipal and Dr. Suneel Mundkur, Professor in Paediatrics and Advisor, Quality and Compliance, Kasturba Hospital for their permission and help in the conduct of the present study in the hospital.

I would like to express my sincere gratitude to all the members of my Doctoral Committee and CPR committee for their valuable suggestions. I would like to extend my thanks to Dr. Ramkumar Venkateswaran, Professor and Former HOD, Department of Anaesthesiology, KMC, Manipal for his valuable suggestions, help and support during the entire period of the study.

I also thank the help and support by all my colleagues, Meeti K.S, Abhishek Vaidya, Ramesh Unnikrishnan, Harsha Tatineni, Tisha Ann, Eriba WeimonShilla, Laveena, Geoffrey and Heeralal for their constant support and help for this study.

I thank the Deputy Directors of Academics, Manipal University and the office of the Deputy Director Academics for their good support during the research period.

I thank all my students, relatives and friends for their support and care especially, Mrs. Ragi Jijo and Mrs. Jincy Benny.

Thanks to Mr. Suresh N. for formatting and printing this thesis.

My special thanks to my family, my beloved Husband and my kids, Alex and Joseph, George for their understanding and immense love.

My heartfelt thanks to my mother, My in-laws, Sister and family, Brother and family for their constant support and love.

It would be incomplete without thanking Fr. George Kuzhikatt and Fr. Jim whose powerful prayers and care helped me in completing my study.

Above all, I owe my thanks to the LORD God Almighty for all His abundant blessings on me...

Saumy Johnson
