ACKNOWLEDGMENTS

It is with profound feeling of gratitude, that the author records his thanks to Dr. Dixit K.R., who initiated him into this field of research and took keen interest in the progress of this investigation. He is highly grateful to Dr. Naik Y.G., Dr. Agashe, V.V., and Mr. Patil H.N. for their valuable suggestions and help. It is a pleasure to recall the cooperation of many a colleague at the Institute of Science, Bombay and Gujarat College, Ahmedabad. His thanks are also due to Mr. Jayakar S.B. for the prompt and elegant typing of this work.

He acknowledges with gratitude the award of scholarship by the Govt. of India during the tenure of the present work. This work was aided by a research grant from the Ministry of Scientific Research and Cultural Affairs, Govt. of India.

D.K. GIJARE
