ACKNOWLEDGEMENT

I deem it a great pleasure to place on record of my deep sense of gratitude and indebtedness to my research supervisor, Dr. S.Kulothungan, Associate professor and In-charge of Microbiology, Department of Botany and Microbiology, A.V.V.M. Sri Pushpam College (Autonomous), Poondi, Thanjavur District, Tamilnadu, for his support, invaluable guidance, constructive criticism during the write up of the thesis as well as the publications and constant encouragement throughout the period of the research work. I am specially thankful to him for having confidence in me which helped me to overcome many problems during my research work. I am indeed grateful to him for his constant support and full fledged cooperation.

It gives me great pleasure to express my deep sense of gratitude to our revered Kalvikavalar Sreeman K.Thulasiah Vandayar, Secretary and Correspondent, A.V.V.M. Sri Pushpam College (Autonomous), Poondi, Thanjavur for admitting me and also providing necessary facilities to carry out this study.

I thank the Principal, Prof. N. Rajendran, Dean of Arts and Commerce and Dr.A.Thayumanavan, Dean of Sciences, A.V.V.M. Sri Pushpam College (Autonomous), Poondi, Thanjavur, for providing the facilities offered to carry out my research activities.

I am most grateful to Dr.R.Saravanamuthu, Associate professor for his supportive guidance and constructive criticism during the write up of the thesis.

I am most grateful to my well wisher and my teacher Dr.C.Chandran, Assistant professor for his professional, accurate, supportive guidance and constructive criticism during the write up of the thesis as well as the publications.

I want to express my gratitude to my teacher Dr.A.Panneerselvam, Associate professor, Department of Botany and Microbiology, A.V.V.M. Sri Pushpam College (Autonomous), Poondi, Thanjavur District, Tamilnadu, for his inspiration and intellectual contribution for my studies and work.
My special thanks goes to Dr. T. Kumar, Associate Professor and Dr. V. Ambikapathy, Assistant Professor, Department of Botany and Microbiology, A.V.V.M. Sri Pushpam College (Autonomous), Poondi, for their moral support, keen interest, encouragement and timely help during the course of work.

I wish to express my thanks to Dr. N. Thajudeen, Doctoral Committee Member, Head and Associate professor, Department of Microbiology, Bharathidasan University, Tiruchirapalli for his enthusiastic encouragement in bringing out this thesis in a successful manner.

I am indebted to Dr. N. Punniamurthy, Professor and Head, and Dr. V. Ranganathan, Assistant professor, Veterinary University Training and Research centre, Tamilnadu University and animal sciences, Thanjavur for their valuable suggestions and helps during the course of my research.

The staff members of the Department of Botany and Microbiology especially intendants Dr. R. Chandrasekaran, Co-ordinator, Dr. S. Jeyachandran, Dr. C. Manoharan, Associate Professor, S. Murugeasan, P. Pandiyian, P. Madhanraj, G. Senthilkumar, V. Baskar, K. Kavitha, K. Kanmozhi, G. Kanmozhi, S. Vasantha, D. Pavai and D. K. Usha, Assistant Professors have given their invaluable contribution to my work in its every stage, and to whom I owe my greatest gratitude.

I cordially thank Dr. R. Damodaran, Dr. M. Gopinathan, Dr. R. Rajakumar, Dr. S. Ramu, Dr. R. Prakashraj, Dr. S. Madhavan, Mr. S. Vijayakumar, Mr. J. Selvam, Mr. P. Nambirajan, Mr. M. Ramasamy, Mr. K. Muruganantham, Mr. Senthilkumar, Mr. R. Anand and Mr. J. Rangaramananujam, Assistant Professors for helps rendered from them.

I am indebted to Mr. R. Karthick, Sri AMM Murugappa Chettiar Research Foundation, Tharamani, Chennai and Mr. S. Rajkumar, Research Scholar, Annamalai University, Mr. G. Rajasekar, Mr. B. Ponmanikandan, Mr. P. Ganasekaran, Mr. K. Gunaseelan, Mr. S. Vijayababu, V. Nivetitha and K. Shanthi, for their valuable suggestions and helps during the course of my research.

My work mates in the department of Botany and Microbiology deserve a great acknowledgement for their nice company, support, and keeping the spirits high no matter the day, season or reason! Big hug to G. Sidharselvam, G. Ganesh kumar, R. Senthilkumar and R. Sivakumar.
I also thank the non-teaching members of the Department of Botany and Microbiology for their patient assistance. I also want to thank my student mates S.Srinivasan, V.Ganapthyselvam, K.Usha, S.Sudhasundari, R.Ishwarya, T.Priyadharshini and K.Lalitha for rendering their encouragement and enjoyable company.

My greatest acknowledgement and gratitude goes to my beloved family My dear sisters, Amutha and Kannaki, and my dear brothers Thirugnana samandam, Raja, Mohan and Sakthivel have always stayed by my side, and never turn their back to me. Can anyone ask any better sisters or a brothers, not only siblings but also best friends.

I also give my thanks to my brother-in-laws, Last but not least, my dear niece Deepan, Gunaseelan, Jayaseelan, Muheash, Padma, Deepekka and Pavithra have always brought about some excitement and fun in my life assuring, that it never gets too boring out there!

The longer the path, the more friends and dear people, meet along my way. As this work has been a long path, I have the privilege to owe so much gratitude to so many people.

My humble thanks to the God for giving me an intellectual strength in finishing the thesis successfully.

K.Karthikeyan.
