ACKNOWLEDGEMENT

This thesis is the outcome of the experimental work, carried out by me at the Department of Zoology, Gujarat University, Ahmedabad, which owes its inception to the wise and excellent guidance of Dr. M.V. Rao, Reader, Department of Zoology, University School of Sciences, Gujarat University, Ahmedabad. With heartfelt gratitude and respect the candidate thank Dr. Rao, M.V. for his sincere approach and tireless interest which enabled me to accomplish this task successfully.

Many have helped me directly or indirectly during the tenure of this work. Words are inadequate to express my sincere indebtedness and thanks to every one of them. Prof. (Miss) N.J. Chinoy, who being the Head, Department of Zoology, provided me with all the necessary facilities of the department during the course of this study. Dr. Hyacinth Highland and Dr. Linz Buoy George have been a constant source of inspiration and encouragement.

All other staff members of this department also rendered constructive suggestions and critical advises during the time of this thesis. Dr. R.K. Goyal, L. M. College of Pharmacy helped a lot during the physiological studies on vas deferens.

The awards of Junior Research Fellowship by Lady Tata Memorial Trust (LTMT), Bombay and Senior Research Fellowship by Indian Council of Medical Research (ICMR), New Delhi during the course of this thesis were duly acknowledged.

Dr. M. V. Narayana was of immense help during the initial stages of my work. All my past and present colleagues of Department of Zoology, Ms. Amita Kapadia, Ms. Arti, Mrs. Gayatri, Mr. Kamelesh and the colleagues of RIA Laboratory Ms. Harsha, Ms. Priya, Ms. Dhruva, Mrs. Shroban, Ms. Amita Walembe have willingly and wholeheartedly cooperated with me during this study. Also my friends Mr. Mathews, Mr. Gautam, Mr. Amar, Mr. Manu and Mr. Aby were a source assurance and support during the tenure of
this work.

The help during the photographic work rendered by Mr. Somabhai was par excellence. Mr. Murali of Mrs. Buoys Sales Syndicate and Mr. Nambiar greatly aided the word processing of the manuscript.

Mr. Lalu Buoy George & Family and Mrs. Barbara Macwan & Family have taken at most care in making my stay at Ahmedabad comfortable and extended all their support.

My brothers and sister and each one of my family showered all their concern, efforts and encouragement which had been the major impetus in my studies. Lastly but not the least it is my parents, Mrs & Mr. K. C. George, whose indispensable prayer and loving care which gave me strength, without which I could not have completed this task.

(Roy George K.)
