ACKNOWLEDGEMENT

I wish to express my sincere gratitude to Dr. H.C. Srivastava, Senior Deputy Director and Head, Chemistry Division, ATIRA for his valuable guidance, encouragement and help throughout the duration of my research work.

I am indebted to Dr. T. Radhakrishnan, Director, ATIRA for permitting me to carry out the work in ATIRA and also for his inspiring and timely advice as and when it was sought from him.

My sincere thanks are due to Dr. Raj Kumar for his continuous guidance and comments on the work which helped greatly in all stages of the research.

The award of a research fellowship from the Council of Scientific and Industrial Research (C.S.I.R.), New Delhi, is sincerely acknowledged.

I thank Dr. N.E. Dweltz and other members of Physics Division for their co-operation and help in SEM photographs.

I am indeed in thanking Mr. M.V. Mehta for his untiring help and keen interest in my day-to-day work, and, above
all, the brotherhood and affection which enabled me to concentrate on my research work.

I thank Mr. R.M. Mewada for readily and willingly preparing the drawings required not only for the thesis but also for other projections.

I take this opportunity of thanking Sarvashree T.K. Das, P.C. Shah, J.J. Patel, G.C. Amin, A.K. Dhingra, V.M. Thakar, Mehraben and all others in ATIRA mainly in Chem. & Engg. Div., Physical Testing Section and Centre for Macro Studies who are too many to enumerate, but whose help in one way or the other have added up to the completion of my work.

I have great pleasure in expressing my deep sense of gratitude to Mr. C.O. Patel for his constant encouragement during the entire period of my research work, which was often extended to guidance even in my personal development. I was fortunate in finding a second home among members of his family who were very cordial, treating me as one of their own, and being a great support through all my problems at work and outside it. In the complexity of my problems, the Ph.D. would have remained a dream without the affectionate help of Mr. M.V. Mehta and Mr. C.O. Patel.
I must specially acknowledge Mr. R.C. Vora's help by way of meticulous editing of the manuscript and Mr. Yatin R. Vora's excellent and prompt typing work for the thesis.

I am deeply indebted to my respected elders, Bhanumasi and Jivankaka for their personal care during my stay with them.

Though I had to stay away from home during the Ph.D. work, I cannot fail to record my sincere and affectionate gratitude to all members of my family.

...  

- J.K. DAVE
