6. BIBLIOGRAPHY

Aiken, D.E. and E.H. Byard (1972): Histological changes in lobster (Homarus Americanus) exposed to yellow phosphorus; science 76, 1434 - 1435.

Bhakthavathsam, R and Sriramlu (1982): Effect of pesticides lindane, disystom and furadon, on respiration in Anobas testudineus (Bloch). All India symposium on physiological responses of animals to pollutants, held at department of Zoology, Marathwada University, Aurangabad.

Bass, M.L., C.R. Berry and A.G. Heath (1977): Histopathological effects of intermittent chlorine exposure of blue gill (Lepomis macrochirus) and rainbow trout (Salmo gairdneri) winter Res. 11, 731 - 735.

Cairns, J. and A. Scheier (1964): The effect on the pumpkinseed sunfish, Lepomis gibogus (Linn) of chronic exposure to lethal and sublethal concentration of dieldrin. Natul. 370, pp.10.

Dutta K.K. and T.S.S. ixit (1973): Histopathological changes in the testes and liver of the rats repeatedly exposed to pesticides Expt. Pathol. 8: 3.

Dutt, Dev and Ashok kumar Sharma (1989): Toxicity and respiratory effect of mercury chloride and methyl mercuric chloride on cat fish Mystus vittatus Uttar Pradesh J. zool. 9(1) 43-47.

Environ. and Ecol. 193-196.

Lomte, V.S. and M.L. Jadhav (1982); Effect of toxic compounds on oxygen consumption, in the freshwater Bivalve, *Corbicula regularis* Comp. physiol. Ecol. 31-33.

Mcleod J.B. and F. Pessah (1973); Temperature effects on mercury accumulation toxicity and metabolic rate in rainbow trout (*Salmo gairdneri*) F. Fish Res. Bd. Canada 30, 482-485

Mckim, J.M. and D.A. Benoit (1974); Duration of toxicity tests for establishing No effect concentration of copper with brook trout (*Salvelinus fontinalis*) J. Fish Res. Bd. Con. 31: 449-452

Metacalf R.R, et.al 1971) Model ecosystem for the evaluation of pesticides biodegradibility and ecological magnification. Env.sci.and Tech. 5(8):709-713

Mani, V.G.T. and S.K. Konar (1986): Acute toxicity of some pesticide to fish, Plankton and worm. Environ. and Ecol. 4

India 4.

Natrajan, G.M. (1983): Metasystox toxicity; effects of lethal (LC$_{50}$/48h) concentration on free amino acids and glutamate dehydrogenase in some tissue in the air breathing fish, Channa striatus. Physiol. Ecol. 8;254-258.

Protmann, J.E. (1970): Toxicity testing with particular references to all removing materials. F.A.O. Tech. Conf. on marine pollution and its effects on living resources and fishing. FIR. MP/70/E

Sprague J.B. (1971) Measurement of toxicity to fish III-water Res. 245-266.

Tankar, S.S. (1985); Effect of some pollutants on edible crab, *paratelphusa isauluemonti* (Rathbun).

Tazwell, C.M. (1965); Toxicity of synthetic pesticides to aquatic organisms and suggestions for meeting the problem Eco and Indus Socie 5th symposium of British Ecol. Socity 197-218.

Thomas, D.C. and T.L. Moorthy (1976); Acidic phosphates activity in a freshwater air breathing fish *Heteronetes fossilis* and the effect at certain organic pesticide on it. Indian J. Biochem. Biophysis 13, 347-349.

Thomas, R.C.M. (1971); In pesticides and freshwater founa Acad. press, New York.

Vernberg, W.B. and F.J. Vernberg (1972); The synergistic effect of temperature, solinity and mercury on survival and metabolism of the adult fiddler crab, Uca pugilator. Fish. Bull. 70, 415-420.

Vernberg, F.J., M.S. Guram and A.M. Savory (1978); Metabolic response to thermal changes of the adult fiddler crab, Uca pugilator and effect of PCB. Marine Bio. 42(2), 135-141.

Voyar, R.A., (1975) Effect of dissolved oxygen concentration on the acute toxicity of cadmium to the mummichog, Fundulus heteroclitus (L) of various salinities. Transmer Fish. Soc. 129-134.

Waiwood, J.H. and P.H. Johanson (1974); Oxygen consumption and activity of the white sucker Catostomus commersoni in sublethal and nonlethal level of the organochlorine insecticide methoxy chloro. wat. Res. 8: 401-406.

Warren, J. E., W. C. Green and R. Lasafer (1957); Toxicity of Gambusia affinis of certain pure chemicals in turbid water Sewage and Industrial wastes, 29: 695-711.

Warren C. E. (1971); Biology and water pollution control, Philadelphia, W. B. Saunders Co.

Watabe and Vernberg (1972) Electron microscopic studies on tissues of fiddler crab, Uca puqitator, maintained in sublethal concentration of mercury (Quated by Vernberg and Vernberg (1972).

Weiss, C. M. (1961); Physiological effects of organic phosphorous insecticides on several species of fish Trans. Fish. Soc. 90, 143.
