ACKNOWLEDGEMENT

I owe a deep dept of gratitude to Dr. N.M.I. ALHAJI, M.Sc., Ph.D., P.G.D.C.A., Associate Professor of Chemistry, Khadir Mohideen College, Adirampattinam, who initiated me to explore this research work. I gratefully acknowledge his constant help, guidance and valuable suggestions and discussion for the completion of this thesis.

I wish to thank Janab. S. MOHAMED ASLAM, Secretary and Correspondent of Khadir Mohideen College, Adirampattinam for providing the necessary facilities to carry out this work in our laboratory.

I am grateful to Dr. A. MOHAMED ABDUL KHADER, M.A., M.Phil., Ph.D., Principal of Khadir Mohideen College, Adirampattinam who had given good encouragement for this work.

I express my heartfelt thanks to Dr. T. HIDAYATHULLA KHAN, M.Sc., Ph.D., Head of the Department of Chemistry, Khadir Mohideen College, Adirampattinam for his kind gesture.

I extend my profound thanks to all my departmental and college colleagues for their kind and spontaneous help throughout my period of study. Also, I would like to thank all my friends, well-wishers and co-
researchers, especially Mrs. K. Kalaimathi for their help and cooperation in completing this project work successfully.

Finally, I am immensely grateful to my father, mother and sisters and to my wife, K.A. Nasrinneesha, my sons, A.U. Azarudheen and A.U. Nazeerudheen and my daughter, A.U. Rahumath for their dedicated and sincere and patient cooperation and encouragement, which provoked me to complete this thesis work successfully.

A.M. UDUMAN MOHIDEEN
