This bibliography does not exhaust all the works which have been referred to in our thesis or consulted for the sake of the thesis. This is especially true for the articles taken from such reference books as CHI, BRF, SM and XLD, and from such periodicals as Jeseyadhara, Bible Bhasm, Concilium, Theology Digest, Cross Current, The International Journal of Philosophy and Dharma. For the primary source for the BG we have used the critical edition by Belvalkar published by the Bhandarkar Oriental Institute. In the first and second part our citations are from the translations by Radhakrishnan and Zaeher, and in the third part by Belvalkar. For the NT we have mostly used the JB, and occasionally the RSV version. For the original Greek text, The Kingdom Interlinear Translation has been utilized.
