ACKNOWLEDGEMENT

A sincere thankfulness and an inestimable gratefulness, inseperably interwined with indebtedness to Prof. JUDAS FRANCO (M.Sc., Ph. D., F.I.C., F.ESC.l) who like a light-house lit for me a vast area of unfathomable ocean of knowledge - Chemistry. By his intellectual acumen and dialectical power, his clarity and perspicacity, his affluence and with overarching mastery, he guided me during the entire pursuant endeavour of this research work on all the pathways, notwithstanding institutional limitations pertaining to analytical instrumentation.

I dwell upon expressing my thankfulness to the management of M/s. H. B. Gum Industries Pvt. Ltd. Kalol for providing me all possible facilites with warmth and cordiality.

I seize upon this opportunity to acknowledge my heart-felt thanks to N.I.O.H. Ahmedabad, for providing facilities as regards spectral analysis such as I. R. and U. V.

I sincerely thank late Dr. M. N. Patel, head of the chemistry dept., S. V. University, Vidhyanagar, for permitting me to take the magnetic suscpectibility measurements.

I dwell upon expressing my thanks to all friends and colleagues for their good wishes and co-operation.

Finally, my heart rises up in thanksgiving to the management of the Bhartiya Vidya Bhavan's Sheth R. A. College of Science, Ahmedabad, for their kind gesture of granting permission to work in the institute and also to The Principal, Shri C. B. Gemawat who from his magnificent and august position, accorded me all the requisite facilities and amenities at his command and who by a unique blending of authority with magnanimity insisted not only upon discharging disciplined duty and devotion to the institution, but also gracefully took live untiring interest in the progress of my work from beginning to the end.

I also express my heart-felt thanks to all the members of Chemistry department Bhavan’s R. A. College of Science, Ahmedabad for extending their hearty co-operation.

(P. N. Patel)
