ACKNOWLEDGEMENTS

Study of Economics attracted me to acquire further understanding in the domain of regional analysis. I chose it as a theme of my research work leading to the degree of Ph.D. I had rightly anticipated that this work will provide me an opportunity to peep into a variety of issues, interrelated with a variety of diverse pattern of socio-economic fabrics of the states of India. I was further encouraged to undertake this research work at Sardar Patel Institute of Economic and Social Research, Ahmedabad, as the Institute already had a very good background of research in the area of Regional Analysis.

During the course of the research work, most of the time I found the task very interesting, challenging and sometimes frustrating! For making this experience so interesting and fruitful, I am thankful to my supervisor and to the faculty members of the Institute. My deepest feelings of gratitude are for Prof. S.P. Kashyap who consistently inspired, fostered and channelised my efforts in the right direction. But for his analytical clarity and sober checks, the vast landscape of the present theme would not have taken its present shape.
I am grateful to Prof. V.K. Alagh for taking keen interest in the progress of my work at each stage. My grateful thanks are also due to Prof. K.K. Subrahmanian who provoked very thoughtful discussions which helped me substantially in deriving conceptual clarity. Prof. C.V.S.N. Murty and Prof. V.P. Bharadwaj extended crucial help in sorting out the econometric issues involved in the analysis. For this, I am grateful to them. I have also been benefited by the discussions with Prof. T.S. Popola, Prof. Amitabh Kundu and Prof. Revi Pholaskia at various stages of my work.

Indian Council of Social Science Research facilitated me to take up the research work on a full time basis, by awarding the fellowship. I am thankful to the authorities of ICSSR. My grateful thanks are due to Sardar Patel Institute of Economic and Social Research and to K.A. College, Kasganj for providing the facilities to carry out this work. The co-operative of the administrative staff of SPIESR also deserve special thanks. The support of well wishers like Shri K.C. Jain, Secretary, Managing Committee and Prof. C.S. Sharma, Principal, K.A. College, Kasganj, has been a constant source of inspiration to me. I also acknowledge the support and good will I have received from Prof. S.K. Pathak, M.S. Yadav, Suresh, R.L. Pandey, Sushil Gupta and B.R.S. Gupta. I am grateful to all of them.

The valuable help from my other colleagues and friends at SPIESR is also gratefully acknowledged. I specially
thank Shri Y.V. Puthulu for his sustained help on computer. Shri M.C. Madhavan did an excellent work by typing the drafts of the thesis within a short time at his disposal. I am thankful to Shri Madhavan and Shri K.P. Satessan and Mrs. Prema Madhavan for typing the thesis very neatly.

The pleasure of the friendly help which I received from my friends like Jayshree, Rakesh, Tulsi, Jeevand, Anil, Riron, Surjeet, Himel, Sohitbhai and Dr. Devendra Kothari will remain as fresh as ever.
