Acknowledgement

No research is ever the outcome of single individual’s talent or effort. This work is no exception. This research work would not have taken shape without the wholehearted encouragement and live involvement of many people. So with immense pleasure, I humbly grab this opportunity to acknowledge reverentially, many people who deserve special mentions for their varied contributions in assorted ways that helped me during my Ph.D research and the making of this thesis. I could never have embarked and finished the same without their kind support and encouragements.

In the first place, with a feeling of profound pleasure I can say that the credit of this work goes to a giant personality in himself, who has brought about a better me in myself, my honorable guide Dr. Dr. Rajesh K. Parikh, Head, Department of Pharmaceutics and Pharmaceutical Technology, L. M. College of Pharmacy. I would like to express my profound gratitude to my guide Dr. R K Parikh sir for his supervision, advice, and invaluable guidance from the very early stages of this research and for giving me his extraordinary research experiences throughout present study. Above all and the most needed, he provided me unflinching encouragement and support in various ways. His truly scientist intuition has made him a constant oasis of ideas and passions in science, which exceptionally inspired and enriched my growth as a student, and a researcher that I wanted to be. I thank immensely for his patient hearing of my work and for the constructive comments, valuable suggestions and feedback given to me, from time to time, up to the last stages of my research work, which were tremendously helpful in improving and advancing the present work leading to this final successful outcome. I am thankful to him from bottom of my heart more than he knows.

I would like to express my earnest appreciation to Dr. D. R. Shah Vice Chancellor Uka Tarsadia University, Bardoli and to the Management, Bardoli Pradesh Kelvani Mandal (BPKM), for providing their considerate support, motivation, encouragement and facilities to me, throughout the tenure of my research work. I also, sincerely thank, Dr. S. A. Shah PG Head, Maliba Pharmacy College, Bardoli, for his kind words of appreciation, inspiration and for his sheer scholastic presence that is motivating enough to drive anyone to work harder. His constructive technical inputs have helped me a lot during my research work.
I also express my deepest gratitude to Dr. Anita Mehta, Principal L.M. College of Pharmacy, Ahmedabad for providing me facility to carry out my research work and also for her creative inputs to my research studies.

I would also like to thank Dr. M.C. Gohel, Dean Faculty of Pharmacy Ahmedabad University for his constant encouragement and the nourishment of knowledge he conferred upon me.

I am very much thankful to one of my very close friend and co-worker for this research work Akshay Koli. This is the opportunity to thank you not only for always being a invaluable, solid moral support but also for enabling me to procure some important technical resources and rendering the critical help in carrying out essential work during my research work. This entire journey of research would not have been in its place without you dear. I am very much thankful to you more than your imagination.

I owe a lot of thanks to my friends Dr. Bhavin Vyas and Shrikant Joshi for being a key brain behind the pharmacological work in the present study, with indefatigable zeal, ever smiling efforts and patience, no matter, whatever the time of day and night. I really appreciate their ever cheerful and friendly demeanour on my frequent queries, ample conversations and interactions for the concerned work, which has truly enriched my knowledge in Pharmacology.

My special thanks go to Mr. Furran Maulvi firstly, for warm, supporting and genuine friendship that is one of the best and out of this world. I thank you for helping me to carry out some indispensable analytical work including contact angle and DSC studies done with such precision and accuracy; which could not have been possible without you. My sincere thanks to you for being reachable constantly, taking out time always from your very hectic schedule, whenever entailed. I am also very much thankful to Mr. Paras Patel for being ready to help and being accessible for technical assistance especially with formatting and referencing of this thesis.

I express my gratitude to Mr. Kunjan Bodiwala and Mr. Bhavin Marolia for enabling me to carry out essential analytical work, especially FTIR and UV Spectroscopic work utilized in the present study. I am also very much thankful to Mr. Vilas Surana for his help during histopathological studies and constant inspiration for my research work.
My heartfelt thanks go in particular to my friends Gajanan Kalyankar, Sandesh Lodha, Hiren Thakkar, Vimesh Patel, Darshan Parmar and Ashish Patel for their priceless friendships, warmth and continuous motivation and support during this work.

I am heartily obliged to my dear friends and colleagues in line of work, Dr. Ashish Mishra, Dr. Pranav Shah, Ms. Renu Chauhan, Sonia Pandey, Hetal Patel, Payal Shah, Ritesh Shah and Dr. Tiwari for their continuous support and motivation to pursue my doctorate research studies. I am also thankful to all my colleagues for their support and for the intelligent scientific discussions along with the common friendly banters that we always enjoy. I am also thankful to Shri P M Rao for his efforts to initialize my doctorate research under guidance of Dr. R.K.Parikh sir.

I want to convey my deepest appreciation to all library staff and lab technicians and Peons at Maliba Pharmacy College, Bardoli as well as at the L.M. College of Pharmacy Ahmedabad for providing the critical help related to research and academics activities. I am also thankful other persons in line work like Laxman, Satish, Vivek and Bhavin for their help during my studies.

I am extremely thankful to the pharmaceutical companies like Priyal Pharma, Alkem Pharma and Vapi care Pharma for their kind cooperation in sending me the requested drug-APIs. I am also thankful to persons at NIPER, Nirma University Ahmedabad for providing me research facility.

I am extremely thankful to Dr. Nilesh Nayak Ophthalmologist for helping me to carry out in vivo studies.

Words fail me to express my appreciation to my wife Jigna whose dedicated love and unrelenting confidence in me has always motivated me to work with such gusto to take much load off my shoulder. Thank you lovely Jigna, for being the sunshine of my life! I am also thankful to my loving cute son Medhansh whose ever smiling face brought positive energy in me.

I am ever indebted to my parents and my uncle who deserve special mention for their indissoluble support and prayers. They are the persons who rooted the fundamentals of strength of my character, showing me the joy of intellectual pursuit ever since I was a child and raising me earnestly with their caring, gentle love and sacrifices.
I am also thankful to my sister and brother in-law for their kind support during my studies. I am also thankful my parent in-laws for their encouragement and support to do my research work.

I am ever indebted to all the names mentioned for their moral support during my severe accident which helped me to come out strongly with positive attitude.

Before I sum up, I offer my regards and blessings to all of those people who supported me and offered me their gracious help in any respect during the completion of this research work; with my sincere apology, if I was not being able to mention them all individually. And last but not the least, my unlimited thanks to Almighty for his blessing to bring forth my internal positive energy to cherish my work.
