ACKNOWLEDGEMENTS

It is a matter of great pleasure and privilege to express deep sense of indebtedness and unbounded gratitude towards my eminent guide Dr. V. B. Gohel, Professor and Head of Physics Department, Gujarat University, for his inspiration and invaluable guidance at every stage of work throughout the period of my research. A respect and affection lies deep in my heart for Professor V. B. Gohel. I express, most respectfully, my heartfelt thank to him at this stage.

I am forever indebted to Dr. A. R. Jani, Professor of Physics, Department of Physics, Sardar Patel University for the extraordinary interest that he took in me through his constant encouragement and useful discussions at every stage of my research period. I can never forget the invaluable help rendered by him.

I am also deeply thankful to late Professor J. Callaway, Department of Physics, Louisiana State University, Louisiana, Baton Rouge for his useful discussions with Prof. A. R. Jani on BNDPKG programs which could prove me of great concern.

I am also deeply thankful to Dr. D. G. Kanhere, Professor of Physics, University of Poona, Pune for the useful discussions.

I am also highly grateful to Principal Dr. C. G. Dave for his all out co-operation, support and constant encouragement to me all the time.

Last but not least I am also thankful to University Grants Commission for awarding to me ‘Teacher fellowship’ of one year for the completion of research work.

I will be failing in my duty, if I do not remember my family members for sharing my responsibilities and allowing me to keep away from social routines from time to time during the course of this work. No words are adequate enough to express my abiding gratitude to my beloved parents for their keen interest and, source of tremendous strength and energy to me.

Ahmedabad
November 18, 1997.
