1. Radiation Effects in oxygenated frozen aqueous alkali hydroxide systems.

Annual Convention of Chemists, Madurai, India, p.103, 1974.

3. Studies on the reactions of Triacetoneamine-N-oxyl (TAN) and their possible implications in radiosensitisation.

4. Magnetic Resonance studies on the interaction of 6-oxo-Benz(o)a)Pyrene radical with caffeine and some nucleic acid components.

5. Interaction of Mutagenic and Carcinogenic aromatic radicals with nucleic acid components.
VIIth International Conference on 'Magnetic Resonance in Biological Systems' Quebec, Canada, p. 46, 1976.

Tenth Annual Meeting of Association of Magnetic Resonance Spectroscopists of India, Gujarat University, 1978.

7. An ESR and Spin label study on the interaction of radiosensitising local anaesthetic drugs with human erythrocyte membrane.
To be submitted for publication in Biochim.Biophys.Acta.
