Acknowledgements

First of all I would like to express my sincere gratitude to Dr. Vijay K. Agarwal for providing his guidance, encouragement and motivation in carrying out this research work. I specially thank Dr. B. S. Gohil for his guidance through the course of research work. He helped me in interpreting results from various experiments performed during the study. I am extremely grateful to him for all the help and support.

I thank Dr. Abhijit Sarkar for his keen interest in my work and encouragement from time to time. I express my sincere thanks to all scientists of Meteorology and Oceanography Group for useful discussion and suggestions during my work. I would like to thank Dr. M. S. Narayanan, former Group Director, MOG for his constant encouragement.

During the course of my work, I received tremendous support from MOG computer facility for which I sincerely thank Shri H. I. Andharia, Smt S. B. Kartikeyan, and Smt. Yagna K. Mankad for their cooperation. Support from CMC staff is thankfully acknowledged.

I would like to thank, Director, Space Applications Centre (ISRO) and Deputy Director, Remote Sensing Applications and Image Processing Area, for kindly allowing me to register with Gujarat University.

I have a deep sense of appreciation for Neeraj and his family who have been so nice and considerate to me all these years.
I am indebted to Indran and Sushil for being there with me all the time, providing moral support. It was fun having friends like Randhir, Jayshankar, Yaswant, Babu, Falgun, Thomas Kutty and Sram with whom I had several memorable moments.

My parents have always been a source of inspiration to me. This work is a result of their blessings, love, encouragement and good wishes with which they brought me up.

Finally I would like to thank God, the almighty, for giving me strength, tolerance, patience and above all a very good luck that helped me to complete this work.

I should also mention that my research in Gujarat University India was supported in part by Space Applications Center, Ahmedabad, and by the Department of Ocean Development (DOD) India, under SATCORE-I project.
