ACKNOWLEDGEMENTS

I am very grateful to Dr. N.E. Dweltz, Assistant Director and Head of Physics Division, Ahmedabad Textile Industry's Research Association (ATIRA), without whose inspiration, skillful guidance and thoughtful advice, I would not have completed this piece of work successfully.

I express my sincere gratitude to Shri R.S. Chauhan, for his constant help and co-operation both in research as well as in other matters during my four years stay here as a Research Fellow.

My sincere thanks are due to Dr. A.K. Kulshreshtha, Dr. Raj Kumar and Dr. G.S. Nadiger for their encouragement and help.

I thank Shri H.H. Bhatt (Physical Testing, M.P.(R) Division), Shri K.M. Patel, Shrimati Rekha Shah, and Shri P.J. Bose (Physics Division) for their assistance in the experimental work. I also thank Shri N.R. Kothari (Operational Studies Division) for computer software facilities provided by him for this thesis work.

I will be failing in my duty, if I do not acknowledge the kind help and co-operation, I received from the Librarian and the Library Staff of ATIRA, while availing the Library facilities.
I acknowledge with thanks the help of Shri R.C. Vora and Shri Y.R. Vora for a nice reproduction of this thesis, Shri D.A. Joshi for his skillful photography work, Shri J.J. Patel (Artist, ATIRA), Shri S.K. Bhavsar (PRL) for their contributions in the reproduction of diagrams in this work.

Last but not the least I am also very grateful to the Council of Scientific and Industrial Research, India, and Dr. T. Radhakrishnan, Director of ATIRA, for providing financial assistance in the form of research fellowships and other facilities.

Ahmedabad Textile Industry's Research Association (ATIRA), Ahmedabad, India.

October 1982

M.V.S. RAO
