INSTRUCTION

Friends,

I have come to you for some research work. I want to study your personality by administering the psychological test.

Now I am going to show you ten cards one at a time. There is no picture as such. This is just inkblot, you see the cards carefully. Since they are only inkblots, they do not look exactly like things but they remind people of things. People see all sorts of things in these inkblot pictures; now tell me what you see, what it might be for you, what it makes you think of. There is no right and wrong answer. So do not hesitate to give your response. You are free to ask any questions or explanations in case you don't understand. Try to complete the work as early as you can.

Thanks for your co-operation.
