ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude to my guiding teacher, Dr. M.S. Dubale, Department of Zoology, University School of Sciences, Gujarat University, Ahmedabad, for suggesting the problem and also for constant guidance.

A part of the investigations was conducted in Central Arid Zone Research Institute (CAZRI), Jodhpur. I am deeply indebted to Dr. H.S. Man, Director of the Institute, for providing necessary facilities. My grateful acknowledgements are also due to Dr. P.K. Ghosh, Animal Physiologist and Dr. I.P. Mathur, Animal Ecologist at CAZRI, Jodhpur, for constant encouragement and constructive criticism during the course of investigations.

My thanks are also due to all the colleagues, both in the Department of Zoology at Ahmedabad as well as at CAZRI, who rendered all possible help throughout the period of investigations as well as in writing the thesis.
