# TABLE OF CONTENTS

Abstract I  
Declaration by the candidate VII  
Certificate of Supervisor IX  
Acknowledgements XI  
Table of contents XV  
List of Tables XVII  
List of Figures XX  
Abbreviations XXIII

## Chapter 1 Introduction

1.1. Particulate Matter 1  
1.2. Sources of atmospheric PM 3  
1.3. Effects of PM on the Environment 6  
1.4. Chemical species of PM 8  
1.5. Effects of meteorology on PM 11  
1.6. Scope and objectives of the study 11  
1.7. References 12

## Chapter 2 Review of literature

2.1. Particulate matter 19  
2.2. Particulate concentration and atmospheric condition 21  
2.3. Monitoring methods of PM 22  
2.4. Source apportionment of PM 22  
2.5. Festivities and PM emission 23  
2.6. Biomass burning in rural kitchens 24  
2.7. Soil and atmospheric PM$_{10}$ 25  
2.8. References 25

## Chapter 3 Materials and methods

3.1. Sampling site 35  
3.2. Sampling 35  
3.3. Analysis 39  
3.4. Quality control 42  
3.5. Statistical analysis 43  
3.6. References 43
Chapter 4 Results and discussion

4.1. Characterization of PM$_{10}$
4.2. PM$_{10}$ emission from festival celebrations
  4.2.1. Diwali
  4.2.2. Festive biomass burning - *meji* burning in the Brahmaputra Valley
4.3. Characterization of biomass fuel smoke particles (BFSPs)
4.4. Exploring atmospheric deposition signatures
4.5. References

Chapter 5 Conclusions and future scope

List of publications

Papers presented in seminar(s)/conferences
