

LIST OF FIGURES

Figure	T i t l e	Page
3.1	Dose effect mortality line at 24 h for <u>Rana</u> <u>chanophlyctis</u> exposed to cythion.....	54
3.2	Dose effect mortality line at 48 h for <u>Rana</u> <u>chanophlyctis</u> exposed to cythion.....	58
3.3	Dose effect mortality line at 72 h for <u>Rana</u> <u>cyanophlyctis</u> exposed to cythion	62
3.4	Dose effect mortality line at 96 h for <u>Rana</u> <u>cyanophlyctis</u> exposed to cythion.....	66
3.5	Percent changes in the glycogen content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	71
3.6	Percent changes in glycogen content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	72
3.7	Percent changes in liver protein content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals	76
3.8	Percent changes in muscle protein content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals	79
3.9	Percent changes in stomach protein content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals	82
3.10	Percent changes in intestine protein content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	85
3.11	Percent changes in brain protein content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals	88

T i t l e	Page
3.12 Percent changes in kidney protein content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	91
3.13 Percent changes in testis protein content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at differnt time intervals.....	94
3.14 Percent changes in ovary protein content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	97
3.15 Percent changes in total lipid content of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time interval	100
3.16 Percent changes in total lipid of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	102
3.17 Percent changes in cholesterol of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time interval.....	106
3.18 Percent changes in total cholesterol of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	107
3.19 Percent changes in protease of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	112
3.20 Percent changes in protease of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	112
3.21 Percent changes in AAT of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	113

T i t l e

Pa

3.22	Percent changes in AAT of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	119
3.23	Percent changes in ALAT of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	123
3.24	Percent changes in ALAT of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	124
3.25	Percent changes in Acid phosphatase of rthe frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of the cythion at different time intervals.....	129
3.26	Percent changes in Acid phosphatase of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	130
3.27	Percent changes in Alkaline phosphatase of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	134
3.28	Percent changes in Alkaline Phosphatase of the frog <u>Rana cyanophlyctis</u> exposed to the lethal concentration of cythion at different time intervals.....	135
