Dear Dr. Cherian,

As the enclosed certificate will indicate, I am pursuing my research studies on the problems of Iranian Students in India.

Since you had been kind enough to accept some of them from time to time particularly for the study of English language, I should be highly grateful if you would let me know your personal opinion about their problems and perspectives as observed by you.

Miss Seemin and Mr. Alavi were the last couple of students who very successfully improved upon their English language at your college and are now continuing their further studies at other colleges.

I thank you very much for your kind attention and look forward to hearing your valued opinion.

Yours sincerely,

Mehdi Hedayati.

My dear Dr. Shisvalkar,

It has been a long time I did not get the opportunity of meeting you personally, although, I have been very anxious to do so. I look forward to it very eagerly.

As I informed you I am in the midst of writing my Ph.D. thesis and I am writing this letter to seek your valued assistance. I have been seeking the opinion of many educational authorities who in one way or other deal with the affairs of Iranian students in India. As I have found you to be one of the most devoted persons on this subject, I should be highly grateful if you could write to me about your experience with Iranian students, the number of them you have at your institution, the number that could possibly accommodated in future and any other suggestion or comment that could be made by you. Your detailed opinion on the subject will be published as a valuable asset to my thesis. I thank you very much for your kind attention and look forward to hearing from you soon.

Yours sincerely,

Mehdi Nedayati.
