ACKNOWLEDGEMENT

I take this opportunity to express my deep feelings of gratitude to my guide Dr. K.G. Desai, Professor of Education, School of Psychology, Education and Philosophy, Gujarat University, for having guided and supervised my work.

I acknowledge my feeling of gratitude to Dr. H.G. Desai, Reader in Education, Saurashtra University, for his valuable suggestions.

I am also thankful to the Heads of all pre-primary schools, I visited in the city of Ahmedabad. It is a pleasure to thank all those innocent and lively children who volunteered to be "GUINEA PIGS" for my experimental work.

I am very thankful to the Director of the Computer Centre, Physical Research Laboratory, Ahmedabad for providing me computational facilities. Without this, the development of the tool would have been rather incomplete. My thanks are also due to the photographer Krishnabhai Patel for his excellent photography for the present work.
Lastly, my feeling of gratitude is due to all the friends who either helped me or encouraged me in my work.

Ahmedabad
October, 1973
