ACKNOWLEDGEMENT

It is believed that howsoever-powerful human being may be, if he does not have blessings of the Almighty i.e. omnipresent, omnipotent, he cannot even jot down one’s work. Leaving apart the entire research work, I could feel this when I went to Pushkar after deciding to once again carry on with the research work. I pray to Almighty and to Ranchhoddasji Maharaj who have throughout been blessing and guiding me in my study.

The people who have laid the foundation for your success should not be forgotten. There is a saying that those who contribute to your rising, you must show your gratitude. My edifice is built on the strong pillar of my father’s intelligence who has guided been guiding me throughout my career. Even with his failing health, he is the one who encouraged me to continue my research. My Guide, Dr. S.S. Singhvi is my motivator who has always been ready to help me whenever I needed him. My better half Nandini has always remained with me throughout my career and has given moral support whenever I needed. Dr. Yogeshbhai Mehta has been the person who ignited my wishes to carry out the research work once again and has been constantly guiding me with his valuable suggestions. These persons paved way for me to start the research work, which I had incomplete.

In a very short but succinct manner, Justice Ahmadi, gave me very useful tips while doing this research work. My aunts Dr. Maya G. Dave and Mrs. Mamtaben Dave, Hon’ble Mr. Justice A.M. Kapadia, Justice M.S. Parikh,
Justice K.M. Mehta who despite their busy schedules, were always ready to guide me.

I would be failing in my duty if I do not thank the people who have always been helping me. My Senior Colleague Shri V.S. Bhatt has always been helping me and encouraging me. Shri Hardik Shah conveyed his willingness to help me in his first meeting with me. He has been very helpful as he himself is a research scholar and specialist in environmental engineering. Along with them, Dr. Mayuriben Bhatt and Rakshaben Desai are persons who have guided me. I cannot forget the help and encouragement of my judicial collegues Shri M.D. Shah, Shri R.D. Kothari, Shri A.G. Urazee and Shri I.C. Shah.

My work would have remained incomplete without the co-operation of Rakeshbhai Soni, Narendrabhai, Shailinbhai, Shitalbhai Soni and Sunilbhai Sachdeva and Pradeep Sheth and Atul Pandya who were always willing to help me with the most authoritative and latest books on environmental.

The other people whom I wish to thank are Family Court staff members who have co-operated with me. The unending help of my close friend and lawyer Shri Maulin Raval, Shri Amit Panchal, Shri Sandipbhai Singhi and above all Ajay Choksi cannot be forgotten, without them I would not have been able to analyze the unreported decisions of the Hon’ble High Court of Gujarat. Shri Maheshbhai Pandya of Centre for Social Justice and my brother-in-laws Shri Chetanbhai and Gaurangbhai have been always ready to help me as they are active environmentalists.
My daughter Shivna and son Abhisst sacrificed their time during my work. My brother Sanjeev and his better half Gita were even helpful in finding out from the encyclopedias' and website and coining new slogans which have helped me in my research work.

The work would not have been completed had my horizons not been widened by Dr. S.S. Singhvi, my guide and Nandini my wife, Resp. Jayendrabhai Mohanlal Thaker my father and Dr. Yogeshbhai Mehta, as their concept about legal aspects has helped me a lot.

The references at the end of each chapter are cited to show my gratitude to the authors, who have done great service in the field of environmental studies. I thank all those who have cared and helped one in completing my work.

The unending guidance by Shri R. Parthasarathy while revising this thesis reminded me of my late father as he corrected each and every page of the thesis despite his busy schedule. He has objectively corrected the English language, and I am obliged to him. My thanks are also due to professor Dr. Yogesh Mehta who has again helped, while revising the thesis. Thanks are also due to Professor T.J. Purani, Professor of English for giving me guidance in English language while revising the thesis.
