ACKNOWLEDGEMENT

It is a pleasure to place on record my gratitude to various persons and organisations, who have been responsible for the completion of this research work. The first name that comes in my list of acknowledgment is my guide, Dr. (Mrs.) Anjana P. Desai, Professor and Head, Department of Geography, Gujarat University, Ahmedabad. She had suggested the topic of research to me and helped me till the end of the work. I deeply acknowledge the debt I owe her for her sincere and constant guidance, sharing her vast knowledge and precious time, patient listening of my views and problems, infinite love and motherly care. She has given me a new perspective to visualise the various aspects of my research work and life, and to solve them efficiently. Her constant criticism and encouragement has resulted in the completion of my work so rationally.

My fieldwork in Banaskantha district is an experience for life to me. The unfriendly physiographic condition and friendly people of the district have taught me to struggle for the best even in a harsh condition. My sincere thanks are due to Shri P.D. Vaghela (IAS), District Collector, and Shri U.C. Rane (IAS), District Development Officer, for allowing me to work in the district and arranging the facility of guest house and transportation during my stay in the district. I am also thankful to the Taluka Development Officers of Wav, Palanpur, Radhanpur and Dhanera taluka; Taluka Magistrate of Wav taluka and talatis of selected villages for their help at various levels of my stay in the respective talukas. Shri Hashmukhbhai Patel, Shri Bharatbhai Thakore, Shri Rajendra Modi, Shri Mukeshbhai and all other members of M.G. Patel Sarvodaya Kendra, Amirgadh and Watershed Development Project, Wav, deserve my special thanks for their kind hospitality and sharing their experiences to understand the local environment and people of the district. I also express my sincere gratefulness to the Managing Committee of Bhansali Trust, Radhanpur for providing facility for boarding and lodging during my stay in the taluka. I would also like to thank Dr. Viren Doshi of the Trust for his keen interest in my research work. The sample households of selected villages, in particular, showed their keen interest and cooperation without which this research work would have not been a success. Here, I also like to give my special thanks to my brother, Shri Subir Saha, who had accompanied me to my field trip and also helped me to fill the questionnaire and sort out the other problems efficiently during the trip to the study area. His constant assistance and encouragement have made my stay in the district much easier and happier.

Space Applications Centre, ISRO, Ahmedabad is one of the Institutes that is working to develop the backward regions of the country with the help of modern technology. My sincere thanks are due to Dr. George Joseph, the then Director and Dr. R.R. Navalgund, Dy. Director, RESA & Mission Director, RSAM for permitting me to use the various facilities available in the institute. I am greatly indebted to Dr. P.S. Dhinwa, Scientist SE, LPPD/FLPG, who has taught me the interpretation of Remote Sensing imageries for landuse management. I also express my sincere gratefulness to Dr. Ajai, Group Director, FLPG; Dr. M.M. Ali, Shri B.M. Rao, Shri S.K. Pathan, Shri P.S. Thakker, Dr. P.C. Joshi and Shri A.K. Sharma for sharing their knowledge and giving their precious time for my research work. Beside this, all other people of the Institute deserve my special thanks for their cooperation.

I express my deep sense of gratitude to Shri R.N. Shukla, Sr. Trg. Officer, Gujarat Jalseva Training Institute; Dr. A.M. Sheikh, Professor of Gujarat Agriculture University, Anand; Dr. Srikumar Chattopadhyay of Centre for Earth Science Studies, Thiruvananthapuram; Dr. V.R. Patel, Asst.
Research Scientist, and Dr. Antani, Professor and Head of Agriculture Economics Department, Gujarat Agriculture University, Sardarkrushinagar, Banaskantha district for their guidance in my research work.

I deeply acknowledge the District Panchayat Office, Palanpur, Banaskantha district; Taluka Panchayat Offices’ of Wav, Radhanpur, Palanpur and Dhanera talukas, Banaskantha district, Department of Agriculture, Gujarat State, Ahmedabad; Soil Testing Laboratory, Deesa Taluka, Banaskantha district; Gujarat Agriculture University, Jamnagar; Meteorology Department, Ahmedabad; RESCO, Gandhinagar; Self Employed Women’s Association, Ahmedabad and Bureau of Economics and Statistics, Gandhinagar for providing me the necessary information and data regarding my work. I also acknowledge Gujarat University, Ahmedabad; Space Applications Centre, Ahmedabad; Gujarat Institute of Development and Research, Ahmedabad; Centre for Environmental Planning and Training, Ahmedabad; Centre for Earth Science Studies, Thiruvananthapuram, Centre for Development Studies, Thiruvananthapuram, Damodar Valley Corporation, Kolkata and National Institute of Remote Sensing Agency, Hyderabad for allowing me the use of their library for literature review.

I express my sincere recognition to the staff members and colleagues of my department for their cooperation and also to the different officials of the Gujarat University for their administrative help. I also declare my deep sense of gratitude and honest thanks to them, whom I had left by omission.

I am greatly thankful to my dearest friend Ms. Aparajita De for her constant support, discussions, affection and care. I also like to thank my friend Ms. Kinvanti Patel for accompanying me during my second visit to the study area. Beside this, all my friends deserve my special thanks for their constant help and encouragement throughout the research work.

At last but not the least, I am always indebted to my younger brother for his everlasting love and encouragement and to my dearest father, M.W.O. Ranjan Saha and loving mother, Smt. Sudipta Saha for their boundless love, cherished care, cooperation and motivation, without which this work would not have been possible. I also like to express my gratitude to my grandparents and all other relatives for their constant encouragement.
