CONTENTS

CHAPTER I: INTRODUCTION.
1. Region, Planning and Regional Planning. 1
2. Why Planning is needed for a Backward Area. 3
3. Problems in designing proper planning. 4
4. Sustainability and Planning. 5
5. Integrated Planning for overall development. 6
6. Objectives of the Study. 7
7. Relevance of the Study. 8
8. Literature Review. 9
9. Contribution of the Study. 13

CHAPTER II: METHODOLOGY AND DATA ASPECTS.
1. Research Tools and Methods Used. 15
2. Hypothesis formulation and its testing. 35
3. Data Aspects. 37
4. Problems of Data. 40
5. GIS, its functions and applications. 42
6. Sampling Techniques. 47

CHAPTER III: STUDY AREA, THE NALKANTHA REGION.
1. Selection of the Study Area. 50
2. Geographical History. 51
3. Geological Setting. 54
4. Characteristics of Physical Resources. 55
5. Characteristics of Human Resources. 60

**CHAPTER IV: REGIONAL ANALYSIS, PHYSICAL RESOURCES.**

1. Soil Characteristics of the Region. 66
2. Rainfall Variation of the Region. 69
3. Landuse at a glance. 77
4. Change in landuse. 84
5. Land degradation. 86
6. Waste land - identification, classification and suggestions for improvement. 89
7. Composite Land Capability. 94
8. Nal Sarovar - the notified Wetland. 106
9. Summary of the Chapter. 110

**CHAPTER V: REGIONAL ANALYSIS, HUMAN RESOURCES.**

1. Distribution of Population. 111
2. Size of Settlements. 113
3. Density of Population. 118
4. Growth Rate. 121
5. Composition of Population. 123
6. Participation Ratio at a glance. 134
7. Occupational Structure of the Region. 138
8. Regional Infra-structural Facilities over decades. 151
   a. Village Development Index. 157
   b. Agricultural Development Index. 159
   c. Demographic Index. 160

   a. Population Potential Model. 160
   b. Development Potential Model. 165

11. Human Carrying Capacity in terms of Calories/Proteins. 169

12. Comparative Analysis of Study Villages with Total Villages in each Taluka. 175

13. Comparison of Study Region with other two Backward Regions. 178

14. Summary of the Chapter. 182

**CHAPTER VI: ANALYSIS AT SUB-REGIONAL LEVEL.**

1. Pattern of Physical and Human Resources. 185

2. Distribution of Infra-structural Facilities in the Three Sub-regions over two decades. 194

3. Nal Sarovar and its Lacustrine Environment. 199

4. Tribals and the Lacustrine Environment. 206

5. Summary of the Chapter. 216

**CHAPTER VII: ANALYSIS AT MICRO LEVEL.**

1. Physical Features. 218

2. Demographic Pattern. 219

3. Agriculture as a means of livelihood. 223
4. Employment and Purchasing Power. 232
5. Health and Hygiene. 239
6. Village level Economic Sustainability. 242
7. Summary of the Chapter. 247

CHAPTER VIII: CONCLUSION.

1. Major Findings of the Study. 248
2. On-going Upliftment Programmes for the Development of the Area. 255
3. Suggestions to attain Sustainability. 257
4. Scope for future study. 264

LIST OF TABLES

II. 1. Composite Land Capability Index. 20
II. 2. Eight-fold Landuse Pattern. 21
II. 3. Availability of Amenities over decades. 26
II. 4. Weightage for Two Overlayed Maps. 45
II. 5. Weightage for Regrouped Map. 46
II. 6. Sampling Techniques. 49
III. 1. Talukawise Cropping Pattern. 59
III. 2. Percentage Irrigated Land to Gross Cropped Area. 61
III. 3. Yield per hectare in Quintal. 62
III. 4. Demography at Regional Level. 65
IV. 1. Soil Characteristics of the Region. 67
IV. 2. Average Annual Rainfall (1971-1995) in mm. 72
IV. 3. Regional Landuse over decades. 78
IV. 4. Change in Yield Rate. 87
IV. 5. List of Types of Trees for Wasteland Management. 92
IV. 6. Land Capability Classes with Area and Percentage. 104
IV. 7. Number of Tourists to the Nal Sarova. 108
V. 1. Distribution of Villages & Population by Talukas. 112
V. 3. Change in Categories of Population. 115
V. 4. Population Matrix : Density per sq.km. 119
V. 5. Effective Male and Female Literacy in % 1991. 130
V. 6. Occupational Profile over decades. 137
V.10. Distribution of Workers into different groups for Selected areas. 147
V.11. Location Quotient of Non-Primary Workers 1991. 151
V.12. Composite Functionality Classes. 153
V.13. Coefficient Correlation of Stepwise Multiple Regression Analysis. 168
V.14. Human Carrying Capacity in terms of Calories/Proteins from Cereals and Pulses. 172
V.15. Availability of Calories/Proteins in Selected Food Items. 175
V.16. Analysis of Backward Villages vs. Total Villages. 177
V.17. Degradation of Land and Change in Cropped Area. 181
V.18. Level of Sustainability of Three Backward Regions. 182
VI. 1. Pattern Recognition. 189
VI. 2. Infra-structural Facilities at Sub-regional and Regional levels 1971 and 1991. 197
VI. 3. Seasonal and Annual variation in Nal Environment. 201
VI. 4. Difference in Waterspread Vegetation and Levels of Turbidity in Nal Sarovar. 202
VI. 5. Landuse and Demography at Micro, Meso and Macro levels. 211
VI. 6. Infra-structural Facilities of Padhar Villages. 213
VII. 1. Demographic Profile of Three Villages. 221
VII. 2. Land Holding Pattern. 224
VII. 3. Farmers' Sustainability from Agriculture. 225
VII. 4. Farm Inputs. 227
VII. 5. Information on Agriculture. 230
VII. 6. Suggestions for the improvement of Production. 231
VII. 7. Employment Pattern of Three Villages. 234
VII. 8. Income from Farm and Non-farm activities per person per year. 237
VII. 9. Common Diseases in Three Villages. 241
VII.10. Village level Economic Sustainability. 244
