ACKNOWLEDGEMENTS

I wish to record my gratitude and appreciation to:

Dr. N.Subba Reddy, Reader in Geology, my research supervisor for suggesting the problem, for his valuable guidance and encouragement through out the progress of this investigation.

Prof. P.T. Naidu and Prof. G.V.S. Rama Rao (former Heads of the Department) and Prof. K.R. Reddy (present Head of the Department) for providing the laboratory facilities.

Prof. C.V.R.K. Prasad, Department of Geology for critically going through the manuscript offering his valuable suggestions for improvement of the thesis and his help in carrying out the work on magnetic properties of granulites.

Prof. K.V. Subba Rao, Department of Earth Sciences, Indian Institute of Technology, Powai, Bombay for his valuable comments and suggestions in the interpretation of REE data on granulites.

Prof. E.A.V. Prasad for his valuable suggestions in the preparation of the thesis.

Dr. V. Divakara Rao and Dr. V. Balaram, Scientists, Geochemistry Division, National Geophysical Research
Institute, Hyderabad for their help in carrying out the trace element and REE determination by ICP-MS.

Dr. L. Mombasawala, Officer-in-charge, RSIC, IIT, Bombay for running the sample solutions by ICP-MS.

Mr. N. Darga Reddy, Research Scholar for his timely help in preparation of thesis.

Sri U. Suresh, Chemical Analyst, Department of Geology for his help in taking the photomicrographs.

Mr. Balaji, Cartographer, for drawing the diagrams.

Mr. G. Harihara Reddy for electronic typing and his help in taking the copies of the thesis.

Sri P. Rami Reddy, Sri K. Muneyya, Sri D. M. Subramanyam for their timely help in various ways to complete this work.

(M. GANGI REDDY)
