Every research work, perhaps, owes a great deal to others, mine, I believe, is no exception.

To those, I owe my thanks who made me feel good by their presence and who made me feel the same by their absence.

I avail this opportunity in expressing my profound sense of gratitude and indebtedness to Messrs Dr. P. T. Nayudu (Guide), Professor and Former Head, Dept. of Geology, and Dr. T. V. K. Reddy (Co-guide), Reader, Dept. of Civil Engineering, S.V. University, Tirupati, for suggesting this challenging research problem, valuable counsel, constructive criticism, constant guidance and encouragement throughout the course of my work and for their unstinted support and help in bringing my thesis to a fitting finale.

I owe my debt of gratitude to Prof. V. R. R. Babu, Dept. of Geo-Engineering and Resource Development Technology, Andhra University, Waltair, for meticulously going through my dissertation and making constructive and instructive suggestions bringing depth to my thesis.

My thanks are due to Dr. E. A. V. Prasad, Professor & Chairman B.O.S., Dept. of Geology, for his constant encouragement in many ways.

I owe my thanks to Dr. K. R. Reddi, Professor & present Head, Dept. of Geology, for providing all facilities for successful submission of my thesis.

Diction is not enough to express my unboundful gratitude to Dr. R. S. Rao, Director, APSRAC, Hyderabad, for permitting me to carry out the Remotesensing studies and providing necessary facilities.

I am also thankful to Messrs Sri Venkatasamy, Scientific Officer, Sri G. V. A. Ramakrishna, C. Mastan Rao and D. V. R. Murthy, Scientists, APSRAC, for their assistance in applying Remotesensing techniques as well as in preparing maps for the study.

I express my heartfelt indebtedness to Dr. C. Rajagopalachari for thoroughly going through my dissertation making constructive suggestions-including linguistic aspect.

I would like to thank Sri T. Narasimha Reddy, Director, Sri P. Prakasam, Regional Director, State Groundwater Department, Hyderabad, V. Ramana Rao and Jagakumar, Scientists, Central Groundwater Board, Southern Region, Hyderabad, R. Rangarao, private Geologist, Doraswamy Naidu and B. Gopal, State Groundwater Department, Chittoor, for their kind gesture of granting me permission to utilise their literature, field data etc.
My sincere thanks are due to Messrs Dr. B. Kotaiah, Reader in Civil Engineering, Dr. K.S.S. Prasad, and Dr. N. J. Raju, U.G.C., Research Associate, S.V. University, Tirupati, for their valuable suggestions and help.

I express my sincere thanks to the Head, Dept. of Civil Engineering, Tirupati, for providing computer facilities for my work.

I will be failing in my duty if I do not acknowledge the constant encouragement given to me by my beloved brother Sri Y. V. Satyanarayana Rao, my sisters and brothers-in-law for their support, co-operation and help in all ways throughout the progress of the memorable piece of work.

I am grateful to Sri L. Chandrasekar Sharma for his help in the preparation of this work.

My thanks are due to Sri O. Narendra Reddy for printing my thesis in an elegant manner.

I place on record how thankful I am to my beloved mother without whose blessings and constant inspiration, my work would not have seen the light of the day. I pray almighty that I am blessed with such a blessed mother.

It is difficult to remember and acknowledge each individual by name who has helped me at various stages of my work, Yet it is my duty to thank all of them.

Y. Srinivasa Rao
