Publications

International Journals

4. S. Karthikeyan, V. Balasubramanian, R. Rajendran, Optimizing plasma spray parameters to attain min. porosity and max. Young’s modulus of plasma sprayed YSZ coatings, Surface and Coatings Technology (under review)

5. S. Karthikeyan, V. Balasubramanian, R. Rajendran, Effect of Experimental plasma spray parameters on porosity and microhardness, Surface Engineering (under review)

6. S. Karthikeyan, V. Balasubramanian, R. Rajendran, Effect of Experimental plasma spray parameters on porosity and Young’s modulus, Metals & Materials international (revision submitted)

National Journal

Conferences

1. S. Karthikeyan, V. Balasubramanian, Evaluation Of Thermo Mechanical Properties Of HVOF Sprayed Bond Coat Material for TBC Applications – presented in UGC sponsored National level workshop on Surface Engineering (Sure’12), organized by Department of Manufacturing Engineering, Annamalai University, March-2012.

4. S. Karthikeyan, V. Balasubramanian, R. Rajendran, An Assessment of Microstructure and Mechanical Properties of Plasma Sprayed ZrO₂ Based Coatings, presented in UGC sponsored National conference on Recent Advances in Welding and Surface Engineering (RAWSE-14), Department of Manufacturing Engineering, Annamalai University, March -2014.

6. S. Karthikeyan, V. Balasubramanian, R. Rajendran, Evaluation of Thermal Cyclic Performance of Rare Earth Oxide Based Thermal Barrier Coatings (submitted to Asian Thermal Spray Conference and will be published in the special issue of Journal of Thermal Spray Technology, to be held at ARCI, Hyderabad, November-2014)
