ACKNOWLEDGMENTS

I wish to place on record my sincere thanks to the Management of PSG College of Technology and Dr R. Rudramoorthy, Principal for providing necessary facilities and support in carrying out the research work. I am highly indebted to Dr P.V. Mohanram, Professor and Dr K. Natarajan, Professor and Head, Department of Mechanical Engineering, for their valuable suggestions which helped me in improving my research work.

I wish to express my sincere and heartfelt gratitude to my supervisor Dr V. Prabhu Raja, Associate Professor, Department of Mechanical Engineering, for his persistent help, continued drive and timely motivation which has made this work possible.

I thank fervently the members of my doctoral committee, Dr M. Nataraj and Dr P. Palanisamy for their insightful questions which have improved the quality of the thesis. My special thanks are due to Dr P.R. Thyla for her valuable guidance and technical inputs giving me a wonderful learning experience.

I gratefully acknowledge the financial support extended by IGCAR, Kalpakkam for experimentation. My sincere thanks are due to Dr P. Chellapandi, Director, Reactor Design Group, Shri. V. Rajan Babu, Head-RAS and Shri. Sriramachandra Aithal, Scientist- F, IGCAR for their whole hearted support in accomplishing the research work. Finally, a special thanks to all my family members and colleagues for their moral support.

RAMU M
