LIST OF TABLES

Table 2.1. Details of the cores recovered from southeastern Arabian Sea.
Table 3.1. Late Quaternary sedimentation rates along the southeastern Arabian Sea.
LIST OF FIGURES

Figure 1.1 Physiography map of the southwest coast of India
Figure 1.2 Geology, drainage and watershed areas of the Central Kerala
Figure 1.3 Geological map of the west coast of India
Figure 2.1 Location map of the study area showing core sample locations
Figure 2.2 Flow chart showing steps/techniques used in this study.
Figure 3.1a Radiocarbon ages and the linear sedimentation rates at the core location of AAS 38-4.
Figure 3.1b Radiocarbon ages and the linear sedimentation rates at the core location of AAS 38-5.
Figure 3.2 Temporal variation of LSR in cores (a) AAS 38-4 (b) AAS 38-5.
Figure 3.3 Ternary diagrams showing the textural nomenclature of sediments in the cores (A) AAS 38-4 (B) AAS 38-5 (C) SK 145B/C-8.
Figure 3.4 Temporal distribution of sand, silt and clay fraction in the core AAS 38-4.
Figure 3.5 Temporal distribution of sand, silt and clay fraction in the core AAS 38-5.
Figure 3.6 Temporal distribution of sand, silt and clay fraction in the core SK 145B/C-8.
Figure 3.7 Temporal distribution of C_{org} in the core AAS 38-4, AAS 38-5 and SK 145B/C-8 respectively.
Figure 3.8 Temporal distribution of CaCO_{3} in the core AAS 38-4 and AAS 38-5
Figure 4.1 X-ray diffractograms of some samples at different core depths of the core AAS 38-4.
Figure 4.2 X-ray diffractograms of some samples at different core depths of the core AAS 38-5.
Figure 4.3 X-ray diffractograms of some samples at different core depths of the core SK 145B/C-8.
Figure 4.4 Pie diagram showing the relative abundance of clay minerals – smectite, illite, kaolinite and chlorite - at different core lengths in the core AAS 38-4.
Figure 4.5 Pie diagram showing the relative abundance of clay minerals – smectite, illite, kaolinite and chlorite - at different core lengths in the core AAS 38-5.
Figure 4.6 Pie diagram showing the relative abundance of clay minerals – smectite, illite, kaolinite and chlorite - at different core lengths in the core SK 145B/C-8.
Figure 4.7 Temporal distribution of smectite, illite, kaolinite and chlorite in the core AAS 38-4.
Figure 4.8 Temporal distribution of smectite, illite, kaolinite and chlorite in the core AAS 38-5.
Figure 4.9 Temporal distribution of smectite, illite, kaolinite and chlorite in the core SK 145B/C-8.
Figure 4.10 Temporal distribution of clay mineral ratios of kaolinite and chlorite in the cores.
Figure 4.11 Temporal distribution of clay mineral ratios of chlorite and illite in the cores
Figure 5.1 Temporal variations of major elements in the core AAS 38-4.
Figure 5.2 Temporal variations of major elements in the core AAS 38-5.
Figure 5.3 Temporal variations of major elemental ratios in the core AAS 38-4.
Figure 5.4 Temporal variations of major elemental ratios in the core AAS 38-5.
Figure 5.5 Temporal variations of trace elements in the core AAS 38-4.
Figure 5.6 Temporal variations of trace elements in the core AAS 38-5.
Figure 5.7 Temporal variations of trace elements in the core SK 145B/C-8.
Figure 5.8 Temporal variations of trace elements/Al ratios in the core AAS 38-4.
Figure 5.9 Temporal variations of trace elements/Al ratios in the core AAS 38-5.
