ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude to Dr. C. Hridayanathan, Reader, Department of Industrial Fisheries, Cochin University of Science and Technology, for suggesting this topic, constant guidance, help and encouragement throughout the period of my research work.

I am greatly indebted to Dr. M. Shahul Hameed, Professor and Head of the Department of Industrial Fisheries, Cochin University of Science and Technology for providing me all the facilities and encouragement during the tenure of my work.

I express my sincere thanks to Dr. C.T. Samuel, for his invaluable help during the period of my research.

My sincere thanks are due to Dr. Ramakrishnan Korakkandy, Department of Industrial Fisheries, Smt. K. Radhalakshmy, Shri. H. Krishna Iyer, and Dr. T.K. Sivadas, Central Institute of Fisheries Technology, Cochin 682 029, for their valuable help and support.

My deep sense of appreciation and thanks go to my colleagues M/s Asok Kumar, K.C. Bellarmine, Dr. Shaju Thomas and Smt. C.S. Valsala Kumari for their whole hearted co operation and help during the preparation of this thesis.
I am also thankful to m/s P. Madhulal, V. Bahulanandan, N. K. Dasan, P.B. Anilajan and the non teaching staff, Department of Industrial Fisheries, who have been helpful to me in one way or other throughout the period of my research work.

The Research fellowship received from the University Grants Commission, New Delhi, and Cochin University of Science and Technology are gratefully acknowledged.
CONTENTS

CHAPTER I
INTRODUCTION
Mode of Presentation 9

CHAPTER II
STAKE NET 14
2.1. Introduction 14
2.2. Objectives 17
2.3. Materials and method 17
   Drag of nets 19
   Calculation of net drag 20
   Drag Area 21
   Periphery of the circle 22
   Periphery of the ellipse 22
   Setting angle of meshes 23
   Angle of attack of the netting panel 23
   Drag of cone 24
   Nominal Developed Area 25
   Calculation of drag coefficients 25
   Calculation of $C_{d90}$ 26
   Calculation of $C_{d0}$ 28
   Effect of high solidity panels 29
   Codend drag 32
   Appendage drag 33
   Drag of ropes and lines 33
   Total drag of stake nets 34
   Influence of mesh size on total drag 36
   Influence of twine diameter on total drag 36
Influence of depth of panels on total drag

2.4. Results and Discussion

Details of gear 37
Base systems 38
The net 39
Operation 40
Net drag 41
Influence of mesh size on total drag 44
Effect of twine thickness on total drag 46
Influence of panel depth on drag 47

CHAPTER III
GILL NET

3.1. Introduction

Fishing principles 53
Design elements of the net 53
Mesh size 54
Net twine 55
Visibility 55
Elasticity 56
Thickness 57
Construction 58
Method and time of operation 59

3.2 Objectives

3.3 Materials and method

Existing nets 61
Development of new design 61
Determination of mesh size 62
Mesh selection factor 63
By length measurements 63
By girth measurements 85
Determination of twine size 66
CHAPTER IV

CHINESE NET

4.1 Introduction

4.2 Objectives

4.3 Materials and method

4.4 Results and discussion

The net

Supporting structure

Construction

Operation

Classification

CHAPTER V

ECONOMIC ANALYSIS

5.1. Introduction

5.2. Objectives

5.3. Materials and method

Sample frame work

Collection of data

Data Analysis

5.4. Results and discussion

Stake net

Gill net
CHAPTER VI
RASCHEL KNOTLESS NETTING 127
6.1. Introduction 127
Advantages of knotless netting 129
Specification of Raschel knotless netting 131
6.2 Objectives 133
6.3 Materials and method 134
6.4 Results and Discussion 137

CHAPTER VII
SUMMARY AND CONCLUSION 143
