ACKNOWLEDGEMENTS

I would like to express my deepest sense of gratitude to my guide Dr. M.L. Narwade, Reader in chemistry for his valuable guidance extended towards me regarding perception of profundity of problem, conception of strategy of experimental work and interpretation of results thereof. I am indebted to him for his suggestions from time to time and in the preparation of this thesis.

My sincere thanks are due to Principal, Government Vidarbha Mahavidyalaya, Amravati for providing all necessary facilities from time to time. I am thankful to Dr. M.M. Chincholkar, Head, Department of Chemistry, Govt. Vidarbha Mahavidyalaya, Amravati for his valuable suggestions during research work.

I pay my respect to Dr. D.R. Shekhawat for his encouragement and kind suggestions.

The words are inadequate to express my debt of gratitude to Dr. K.N. Patil, Principal, Vidya Bharati Mahavidyalaya, Amravati, who instilled in me the spirit of scientific inquiry and obliging me by providing me every sort of facility. He is my constant source of inspiration. This work would not have taken final shape without his heartful blessings.

I would like to thank the authorities of Vidya Bharati Mahavidyalaya, Amravati for their kindness towards me regarding various administrative matters linked with research work.

I am also grateful to the authorities of University Grants Commission, New Delhi for awarding fellowship to this research work.

I must appreciate the co-operation given by authorities of Amravati University, Amravati.

It is my pleasure to acknowledge the co-operations of Dr. M.G. Joshi, Dr. Gaggad, Dr. K.N. Wadodkar, Dr. T.H. Mhaske, Dr. A.R. Raut, Prof. A.S. Wankhede, Prof. B.G. Khabragade and Prof. R.D. Satpute, Deptt. of Chem., Vidarbha Mahavidyalaya, Amravati and Dr. V.S. Jamode, Professor and Head, Department of Chemistry, Amravati University, Dr. P.N. Wadodkar, Ex. Principal Vidya Bharati Mahavidyalaya, Amravati.

I am indebted to Dr. A.G. Doshi, Head, Department of Chem, Vidya Bharati Mahavidyalaya, Amravati for his valuable suggestions and constructive criticisms.
I am thankful to Dr. V. S. Soitkar for his valuable suggestions on ultrasonic work.

I also owe a debt of gratitude Prof. R.S. Kale who helped in numerous ways during completion of the thesis.

I take this opportunity to thank my colleagues of Vidya Bharati Mahavidyalaya, Amravati, whose contact created a pleasant environment in my research work.

I am thankful to Mr. S. P. Kandalkar for punctuality and accuracy of typing of the thesis and Mr. Chandu Dhakite for tracing the graphs.

Finally, my special thanks go to my wife Sau. Sheela for her encouragement, patience and understanding. I must mention my thanks to my brother in law Sandip Nehete and loving nephew Ketan for sparing so many valuable hours which were rightfully theirs.

Amravati
